Appendix 1

Monthly Financial Monitoring Report

2013/14 as at end of March 2014 – Quarter 4
DRAFT OUT-TURN

Including a Glossary of terms on page 34

General Fund Revenue Operations – pages 4 to 23

The Qtr 4 monitoring report on the General Fund for 2013/14 is showing a £59k favourable variance compared to the original budget of £9,417k.

Members will recall that 2013/14 has been the first year of the new Localised Business Rates Scheme. Officers calculated the first estimate of resources available as £ 1,904k but the revised estimate, following confirmation of central government tariffs, fell by £58k to £1,846k. During the year one-off Section 31 Small Rate Relief Grant of £370k has been received and £58k of this has been used to reduce overall costs to meet the reduced resources. The balance of £312k has been transferred to a new Retained Business Rates Reserve to support future volatility in this area.

Therefore, the General Fund will end the year at a net break-even position, retaining the £1m in General Fund Reserves in line with the MTFS.

Members will notice that the original net budget figure has increased £85k since Q3 – this is a correction to the presentation of the Homelessness Grant from DCLG which is now included within the Rate Support Grant (a part of the central resources for the year).

Earmarked Revenue Reserves – page 24 to 25

The total cash-backed Earmarked Reserves brought forward at 1st April 2013 were £5,509.5k (excluding the Transport Reserve).

The Transitional Reserve has increased by £405k, including £381k from additional licensing income. New Reserves being reported this quarter include the Business Rates Retention Reserve which is holding the £312k balance of the Small Business Rates Relief Grant. The Empty Homes Strategy Reserve is also new in Q4 – this holds the recycled portion of the Homes and Communities Grant which has already been recouped from properties brought back into use during the year.

The closing balance at the 31st March 2014 is £7,323k; this is forecast to reduce to £6,317k by March 2019.

Government Grants Unapplied – page 26

The opening value of Government Grants Unapplied at the 1st April 2013 was £614k. This included £125k of Housing Capital Pot and Green Vale Homes (GVH) contributions held to fund Disable Facilities Grants (DFGs) approved but not completed by the year-end. The 2013/14 DFG grant has been received, as has the GVH support to support works completed to date.

The Empty Homes Strategy scheme attracted £1,144k of Homes and Communities Agency grant in 2013/14. Of this £873k was invested in homes across Rossendale and its neighbouring authorities. By the end of the year £158k of the monies invested had already been recouped from rentals and this is being held in the Reserve noted above in order to extend the life of the scheme in future years.

The balance at March 2014 is now revised to £684k, which is expected to reduce to £25k by March 2016.

Staff Monitoring – page 26

During 2013/14 22.5 FTEs have been removed from the establishment, a reduction of over 11% on the original budget position. Of the remaining 171.1 FTEs there were 1.4 vacant posts at the end of March 2014. These changes have contributed to cash savings on staff costs during the year of £325k.

Treasury & Cash Management - page 27 to 29

Bank balances have ended the year at £6.5m, marginally up from £6.2m at the end of last year.

Throughout 2013/14 performance has been slightly better than the Capita Asset Services model portfolio benchmark. In early April Capita moved their predictions for an increase in bank base rate forward to the autumn 2015, but the Council has been notified of further reductions in the bank account interest rates in April and July, with most of the short-term and call funds only earning 0.25% from the 1st of July. This will bring challenges in 2014/15 to achieve the original budget target for interest income.

The value of outstanding sundry invoices has dropped to £420k at the end of the year, 48% of which is under 30 days old. The value of invoices raised in the year was £2,595k which is 5% less than last year. The debtor days performance was 60 days (78 at Q4 in 2012/13) compared to the target of 80 days. As a consequence of the high collection rates in 2013/14 the doubtful debt figure is now down from £117k in Q3 to £88k at Q4, against which the Council has full provision so no further provision was required at the year-end.

Capital Receipts - page 30

Income from asset sales during the year of £171k were added to useable capital receipts at the beginning of the year of £1,280k. Additional resources of £ £390k from reserves, section 106 agreements and revenue operations, mean that the total resources available during the year were £1,841k.

Following the slippage of items into 2014/15 mentioned below, the resources required during 2013/14 were £252k. Therefore, the unapplied capital receipts at the end of the year were £1,195k for general fund activity and £397k for housing projects.

Capital Programme and Funding – page 31 to 32

The original capital programme for 2013/14 was £1,201k with a further £825k being rolled over from 2012/13. Additional projects approved during the year totalled £511k, including the Stacksteads Cycleway and Veterans in Communities projects funded by external grants. However, £995k of projects were still under way at the end of the year and these were slipped into 2014/15 along with their respective resources.

This gave an actual capital spend of £1,446k during the year. Activity in qtr 4 has focussed on DFG grants, the tendering and commencement of works at Snig Hole play area and the conclusion of Stacksteads Cycleway and support for Veterans in Communities.

Collection Fund 2013/14 - page 33

The Council Tax Support scheme is currently experiencing a drop in the numbers of people claiming support and this contributed to an out-turn surplus of £334k of which Rossendale Borough Council is entitled to £55k.

Non-domestic rates collection rates have been quite successful, but officers have made a prudent provision of £460k for rating appeals yet to be determined by the Valuation Office, based upon past experience. This has contributed to an overall deficit on business rates of £378k, of which Rossendale is responsible for £151k which will be a charge to the revenue account in 2015/16.

| Favourable impact on General Fund | 9,416.8 | 9,358.1 | 58.7 | 131.8 | (73.1) |

Members should note that the Original budget column above has been amended to take account that the Homelessness grant of £85k has been transferred to the Rate Support Grant central funding received from the DCLG. Hence the Net Original Budget above has risen by £85k, but overall resources for the year have also risen by a corresponding amount.

The draft revenue out-turn position above takes account of various favourable and adverse variances, including the reversal of the planned £386k usage of the Transitional Reserve as reported in Q1, coming to a net favourable £59k. This net figure represents the decrease in resources available from non-domestic rates arising from increased provisions for bad debts and appeals

Significant changes during Q4 include

- Reduction of £124k in VAT Shelter income
- Recycling of provisions no longer required £194k was brought back into revenue, of which £109k was then transferred to support the capital programme.
- Various Leisure-related costs amounted to £158k, including further contributions to the Leisure Reserve and meeting the costs of the closure of Haslingden Pool.
- Business Rates income in the central resources for the year was expected to drop by £58k due to changes in the way the income is allocated. To support this additional income was brought from the newly created Business Rates Reserve.
- Housing Benefits subsidy income is estimated to close the year down £31k, but this is compensated for by higher court costs awarded of £28.7k
- Moving the Council's IT server room from Hardmans Mil is expected to cost £23k.

Communities Highlight Report - Quarter 4 (March)

Historic Issues

- Vacant stalls on the Council's market sites are contributing to reduced income projections, the current budgetary pressure from markets income is £19.2k.
- The summer agency season has ended now; the budget available for hiring staff to carry out the increased services has been underspent by £16.1k.
- Three locality officers have left the organisation resulting in an in-year saving of £66.8k.
- Cemeteries income has increased in quarter 4 by £10.8k from the quarter 3 forecast. At the end of 2013/14 the budget underachieved by £7.0k

Current Quarter Issues

- The expenditure at the end of the 2013/14 financial year was £1.271m, underspending the budget by £84.6k. The variance in quarter 4 was a favourable movement of £9.7k from the figure reported at the end of quarter 3.
- Previous quarters reported the use of £20k of favourable variances to fund the purchase of a new digger in parks. In Q4 a further £36.3k of budget savings have been used to purchase new parks tools and equipment, including mowers.
- £10k of funding has been released from Section 106 monies for the provision of parks tools and equipment specifically in relation to the Douglas Road development area.
- Several budgets that were expected to be fully utilised in-year were underspent at the end
 of 2013-14, these include landscaping materials, external printing and purchasing new
 playground equipment. The total underspend arising from these budgets is £17.0k

Customer Service & E-Government Highlight Report – Quarter 4 (March)

Historic Issues

• Following the previous disestablishment of the Web Development post, a sum of £20k was set aside for future web developments. It is anticipated that only £12k will be utilised in the current financial year, resulting on an under spend of £8k.

Current Quarter Issues

- The headline figure is a projected under spend of £73.5k, a favourable movement from December of (£27.3k) The key movements are detailed below.
- Court costs awarded to the Council in respect of the recovery of council tax moved favourably in the quarter by £28.7k
- The final Housing Benefit subsidy return was £31k below budget, in part reflecting the introduction of Local Council Support and subsequent loss of funding from Central Government for Council Tax benefit overpayments.
- A further sum of £23k was set aside during the quarter to meet the costs associated with relocating the Council's server from Hardman's Mill.
- After providing for a provision for bad debts and appeals the retained business rates were £58.2k below target, albeit this was offset by the small business rates grant received.
- Savings in the quarter of £13k pertaining to software licenses were largely offset by increased costs associated with the integration of the Leisure Trust ICT (£12.1k).

Future Issues

Nothing to be reported.

Operations Highlight Report – Quarter 4 (March)

Historic Issues

- Our frontline refuse fleet has incurred significant maintenance cost throughout the year, overspending the budget by £15.1k with an additional £19.1k spent to fit new lifting equipment to one of our vehicles.
- Fuel prices and usage were lower than expected throughout 2013/14 leading to an underspend against the budget of £85.8k
- The operations team has undergone a staffing restructure affecting 7 active posts. The net in-year saving, after factoring in redundancy costs, resulting from this restructure is £5.5k. The recurrent on-going annual savings of the structure is circa £250k.
- The cost of bringing 9 modern apprentices onto the councils pay roll was £22k
- Vacancies and agency use within the Street Sweeping department resulted in savings of £49.8k.
- Members of the operations admin team have been seconded to taxi licensing during 2013/14 to assist with the high volume of taxi licence applications. The savings from these secondments was £34.4k.
- Recycling income was lower than budgeted for by £10k, this is due to issues regarding contaminated waste with our tipping off contractor and lower than expected recycling tonnages collected throughout the borough.

Current Quarter Issues

- The expenditure at the end of the 2013/14 financial year was £1.937m, underspending the budget by £138.2k. The variance in quarter 4 was a favourable movement of £16.8k from the figure reported at the end of quarter 3.
- The adverse movement of £26.1k in the Refuse vacancies and Agency use budget is predominantly due to increases in Agency use, to cover staff using holidays.
- Fuel prices and usage were lower than expected throughout 2013/14. This resulted in an underspend against the budget of £85.8k. The fuel usage variance was not identified until we had performed the year end fuel stock adjustment and resulted in the favourable quarterly variance of £18.3k.
- The income projection for Trade waste has moved favourably in the quarter by £5.9k reflecting an increased effort by the operations team to collect outstanding debts during quarter 4.
- The decision has now been made to hold off on purchasing a new front line refuse fleet until 2014/15, realising a saving of £85k. This saving will be transferred into the vehicle replacement reserve in order to assist previously identified funding gaps.

Business Highlight Report – Quarter 4 (March)

Historic Issues

 As reported to Members back in February, the original budget was set using a prudent view of income levels for planning and licensing activity.

Current Quarter Issues

- The Business directorate is currently forecast to under spend by £206.8k, a favourable movement in quarter 4 of £36.9k. The key variances in month are discussed below:
- Income from Planning Applications moved favourably in guarter by £36k.
- During the quarter the Council received from Central Government £18k of previously top-sliced monies pertaining to New Homes Bonus monies. These monies were retained by Central Government whilst they assessed their liability for items such as Business Rates retention safety net payments and capitalisation directives.
- A Restructure of the Planning department and various miscellaneous non-pay savings resulted in a favourable movement in the quarter of £20k.
- The Council has invested in a new ICT software solution for Planning, Building Control, Licensing and Environmental Health. Capital expenditure of £29k pertaining to this project has been funded from the 2013/14 revenue budgets.
- Management fees of £15.7k have not been achieved.

Futures Issues

• The Council, in conjunction with the Local Government Association, is currently defending claims from personal search companies in relation to Land Charge Search fees. Central Government have provided funding of £34k towards this liability.

Business - Health, Housing & Regeneration Highlight Report - Quarter 4 (March)

Historic Issues

 At the end of Qtr 3 the Health Housing & Regeneration budgets were forecast to underspend by £80.2k, the major contributing factors being Reduced Management Fee for the operation of Whittaker Park Museum £33k, salary savings arising from the purchase of additional annual leave £6.5k (Housing Strategy), Flexible Retirement £7k (Private Sector Renewals) and various other non-pay under spends.

Current Quarter Issues

- Health, Housing and Regeneration are under spent by £55.8k, an adverse movement in the quarter of £24.4k, the significant variances are:-
- The Council incurred abortive costs of £6k relating to the proposed development of sheltered accommodation at Cherry Tree playing fields.
- The Council has renovated two empty properties in support of its homelessness function. Associated costs with respect to furnishing these properties are £3.2k.
- Write off of bad debts in relation to tenant bonds has resulted in an adverse variance of £6.9k.

Future Issues

Nothing to report

Finance & Property Services - Monitoring Highlight Report - Quarter 4 (March)

Financial Services

Historic Issues

 The original budget included £30k savings anticipated from restructure. Though one-off staff restructure costs have resulted in a £13.6k adverse variance for 2013/14, the full year savings have risen to £54k.

Current Quarter Issues

Insurance costs have increased by £3.1k, mitigated by other operational savings.

Futures Issues

Nothing to report.

Property Services

Historic Issues

- The restructure within the Property Services section has been concluded, with the former Courier taking up post as a Refuse Operative. This has helped to reduce the costs of implementing the restructure, leading to savings of £21.5k in 2013/14 and recurrent savings of £41.3k (including £4.7k for the courier van).
- The departure of the Business Centre Manager has resulted in a further saving of £9.3k
- The tenant at Bridge End House submitted a lease surrender notice and tenancy ceased at the end September 2013. The loss of income for the remainder of the year is £5.8k, mitigated by the increase of income for rent of land of 3.9k. Total movement within the month is a negative £1.9k
- Final costs for Property Services restructure are £3.3k bringing the overall saving to 27.5k.

Current Quarter Issues

- Property Services end the year underspent by £5.9k, an adverse movement of £1.3k in Q4.
- The water charge budgets are showing an under spend of £7.2k, a favourable movement of £3.2k within the quarter. United utilities have deferred the new charges for Surface Water & Highway Drainage until 2016/17 which should have been phased-in in 2013/14
- RBC has received a further £4.1k refund for Business Rates bringing the total to £7.9k
- The electricity budget is showing an under spend of £3.5kk, a favourable movement of £2.8k within the quarter
- The gas budgets are showing an under spend of £4.6k.
- Legionella costs are showing an under spend of £5.4k with no remedial works during the year
- Management services fees of £18.3k have not been achieved.

Futures Issues

 United Utilities are undergoing a national review to consolidate the new charges introduced in 2011/12 for cemeteries. The phased introduction is likely to result in further cost pressures though the total value is unknown.

People & Policy Highlight Report - Quarter 4 (March)

Historic Issues

Nothing significant has been reported.

Current Quarter Issues

- The People & Policy budget is under spent by £105.9k, a favourable movement of £32.5k in the quarter.
- The Training expenditure in the final quarter was below expectations to the value of £15k, reflecting more stringent examination of training requests and the decreasing headcount.
- The decision was made in the quarter to recognise the £20k funding received from Lancashire County Council in respect of the work RBC does with regard to the Children's Trust. Previously it was planned to transfer these funds to provisions.

Future Issues

Non-Distributed Costs & Capital Financing - Highlight Report - Qtr 4 (March)

Historic Issues

- Budgets connected with dis-established posts have been removed from the host department and transferred to the Distributed budget area. Under spends arising from disestablished posts are £138.4k
- The Council had previously set a £60k budget to meet the consequences of pension auto enrolment. The date of pension auto enrolment has moved and consequently there will be an under spend of £43.2. (after netting off the over estimation of the savings arising from the introduction of 5 days unpaid leave for council employees).
- The Council pension liability for previous awards for added years was forecast to under spend by £28.8k but during Q4 this has decreased to £24.8k. This under spend will be transferred to the pension reserve, in anticipation of increased employers pension contributions arising from the next actuarial review of the Council's pension scheme.

Current Quarter Issues

- The adverse variance on the Non Distributed budgets is £156.6k; the key variances are detailed below.
- A provision of £194k previously set aside for deferred business rates was released to revenue as it was deemed surplus to requirements.
- Income from the VAT shelter agreement with Greenvale Homes was £124k below target.
- A favourable outcome regarding a disputed liability regarding works undertaken on Hall Carr Culvert resulted a favourable variance in the guarter of £74.5k
- In light of the Council's favourable revenue position and pressures on capital resources a contribution to capital from revenue of £109k was made in the quarter.
- Closure costs associated with Haslingden Pool were £32.5k; in addition the Council set aside £36.7k to fund Leisure equipment.
- In recognition of the accumulated deficit of the Leisure Trust, £68.6k was transferred to the earmarked leisure reserve bringing the value of this reserve up to £750k.
- Further information has been received regarding the values of historic insurance claims, some of which is due to be settled in this year. This has led officers to recommend an increase of £44k in the provision being held. Much of this is being funded from an insurance claim receipt of £39k received in Qtr3.

Future Issues

Nothing to report.

The above list now includes a Business Rates Retention Reserve which has been funded from the Small Business Rates Relief grant in 2013/14 and can be used in future years to support volatility in the income from non-domestic rating income. Due to increased provisions for bad debts and future appeals, £58k was used to support a drop in the 2013/14 resources available.

Operational Reserves now include a Planning Strategy reserve of £234k and a Tourism Strategy Reserve of £78k. Resources have also been set aside for the impact of the end of the cost share agreement with LCC in 2018 (£23k) and £23k of grants received in 2013/14 to support the introduction of individual electoral registration have been carried forward to meet costs arising in summer 2014.

Current issues

Since the General Fund Reserve has already reached the target of £1m set in the MTFS, any favourable variances generated during 2013/14 have been transferred to earmarked reserves, initially to reduce the need for support from the Transitional Budget Reserve and to support the Pension Reserve.

On closing the accounts for 2013/14 the Empty Homes Strategy costs and funding were reviewed and reflected correctly within the ledgers. This has a net £nil impact on the revenue operations of the Council, but £158k of grants have already been recovered from properties brought back into use. These monies can be recycled in the future to expend the work of this strategy and are shown in a new separate reserve above.

By the end of Q4 £1,144k had been received from the HCA for Empty Homes Initiative. Officers across East Lancashire have identified 234 properties to bring back into use this year, with 60 (25%) of those being within Rossendale at a current cost of £873.4k so far. Members will note that £158k of the grant used has already been recycled into an Earmarked Reserve on the previous page.

Treasury Management & Cash Flow Monitoring

Cash Flow Management

As expected the bank balances dropped from £9.3m at Q3 to £6.5m at the end of the year due to the profile of annual income on the collection fund. However, the original estimate of £11.1m anticipated the £2.5m precept payments going out of the account in early January, not on the 30th December. Prior to this the balance was a more comparative £11.8m.

| | Current | Effective |
|--------------------------|---------|-----------|
| as at 31 March 2014 | Balance | Interest |
| | £k | Rate % |
| NatWest SIBA | 1,474 | *0.50 |
| RBS Instant Access | 2,000 | *0.60 |
| RBS 30-day notice | - | *0.65 |
| NatWest 95-day notice | - | *0.60 |
| Handelsbanken 35-day | 1,000 | *0.75 |
| Lloyds for 364 days | 2,000 | 1.01 |
| Total Bal & Avg interest | 6,474 | 0.73 |

The savings discussed in the early parts of this report have resulted in cash deposits £2.8m above those originally anticipated.

However, bank accounts interest rates reduced again around the year-end and at the time of writing this report interest rates had fallen again, with both RBS accounts dropping to 0.25% on the 1st July and the Handelsbanken account dropping to 0.7%.

This has prompted staff to maximise the use of Handelsbanken's 35-day notice account which is still offering

significantly better rates than RBS, and open a call account which is offering 0.5%.

The Capita Asset Services (formerly Sector) model portfolio return was 0.64% at the end of March. This means that, though the Council's effective interest rate dropped from 0.79% in December to 0.73% in March, performance throughout the year has been marginally better than the benchmark rates.

Interest Earned

| 2 | Budget 2013/14 | | Variance Fav/(Adv) | Change Fav/(Adv) |
|-------------------------|-------------------|---------|-----------------------|---------------------|
| Revenue | | | | |
| Interest payable (PWLB) | (185.0) | (180.6) | 4.4 | 4.4 |
| Misc Interest income | 3.0 | 5.4 | 2.4 | (1.1) |
| Bank Interest income | 79.0 | 82.8 | 3.8 | 2.5 |
| Net Interest | (103.0) | (92.4) | 10.6 | 5.8 |

Despite the savings discussed in the early parts of this report, the repetitive drop in interest rates during the year has resulted in only a £3.8k favourable variance on interest income by the year-end.

Economic Outlook (issued 15th April)

The Consumer Prices Index (CPI) fell to 1.6% in the year to March 2014, down from 1.7% in February.

The slowdown in inflation came primarily from the price movements of motor fuels. Other smaller downward effects came from clothing and furniture & household goods.

For most recent months, prices in the housing, water, electricity, gas & other fuels sector have been the largest contributor to

the inflation rate and currently account for a quarter of inflation. On the other hand, motor fuels are currently having a downward pull on inflation with prices down by 6.6% in the year to March.

Interest rate forward predictions

Capita Asset Services (formerly Sector) undertook a review of its interest rate forecasts in early April, after the Bank of England's latest quarterly Inflation Report.

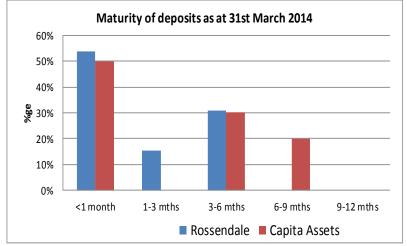

After the initial burst of safe haven purchasing, in the wake of the developing Ukraine crisis, investors have continued the reversal with further sales pushing gilt yields a touch higher. Investors have, however, far from reinstated a risk-on strategy and remain wary of developments in the region. The market is again reflecting the firming of interest rate expectations that the first half of 2015 will see the initial rate hike of the up cycle, with the economy starting to show characteristics of sustainable growth. **Capita: City Watch April 2014**

This latest forecast has moved the first increase in Bank Rates from Q2 of 2016 to Q4 of 2015 and reflects greater caution as to the speed with which the MPC will start increasing Bank Rate than the current expectations of financial markets.

Treasury Management Practices and Prudential Indicators

All the Council's investments continue to follow the policies laid down in the Treasury Management Strategy document, only using UK high street banks with high credit ratings and/or

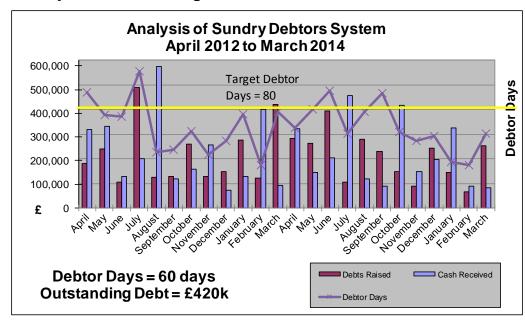

assisted by government funding and limiting investments to short-term (ie. 364 days maximum).

The Council's Treasury Management Practices provide operational limits for the maximum investment with any single institution as the greater of £5m or 50% of total funds available at the time of the deposit, and £10m across a single group. These limits have been adhered to throughout Q4.

Sundry Debts Monitoring

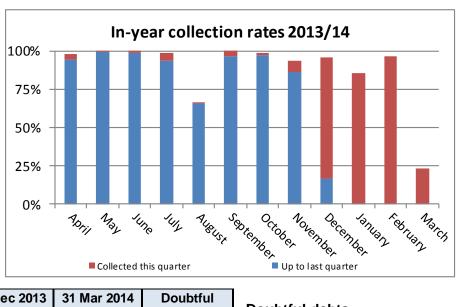

In Q4 £681k of new invoices were raised, bringing the total value of invoices raised in 2013/14 to £2,595k (5% less than in 2012/13).

At March 2014 the outstanding debts totalled £420k, though £262k related to invoices raised in March which were not strictly overdue. Excluding those the collection rate for 2013/14 debts was 94%.

Of the £420k outstanding, 48% is under 30 days old and one \$106 agreement of £96k remains outstanding from August, hence the drop in August collections in the graph opposite.

Debtor days performance at the end of Q4 was 60 days, compared to 59days at Q3 and the target of 80 days. The comparative performance for 2012/13 was 78 days.

| Debts | Mar 2012 | Mar 2013 | 31 Dec | 2013 | 31 Mar | 2014 | Doub Del | |

| Cost of sales | | (7) | (7) | (7) |
| Net receipts to table 2 | 100 | 171 | 171 | 71 |

Current issues

Q4 saw £15k receipts from the sale of obsolete equipment in Operations, which will be used in future to support the costs of the vehicle replacement proegramme.

During the closure of the accounts the revenue contributions towards capital resources were increased with an additional £109k from savings.

Table 2 - Useable Capital Receipts

| Useable Capital Receipts Mar 2014 | 1,589 |
| Reserved for housing | (397) |
| Unreserved balance | 1,192 |

RCCO is Revenue Contribution to Capital Outlay

Financing the Capital Programme

The opening balance of Useable Capital Receipts was £1,280k, though £593k of this was required to finance continuing projects, as shown in earlier reports.

With the addition of £390k from revenue resources (Section 106 agreements, revenue operations and earmarked reserves as shown above) the total capital resources available for the year were £1,841k.

Following the use of £252k as shown above and on the following page, the level of unreserved general fund capital receipts at March 2014 is £1,589k. Of this £397k is ring-fenced for future housing projects, such as CPO projects or DFGs, leaving £1,192k to fund the capital programme in future years, including funding £519k of the slippage items carried forward from 2013/14.

Future issues

The DFG grant allowance for 2014/15 has been confirmed at the level anticipated. However, DFG grant beyond 2015/16 remains uncertain and for prudence the future capital programme proposals assume no DFG grants beyond March 2016. Similarly the GVH support of £200k for DFG works to ex-council house properties is only confirmed annually. This potential drop in DFG grant funding is being reflected in the proposed capital programme for 2014/15 to 2016/17 in February.

Members should also note that the level of property sales income being reported above may not sustainable in the future. The potential drop in both of these capital funding streams is being reflected in the resources available for the proposed capital programme for 2014/15 to 2016/17 in February.

Capital Programme

The original capital programme for 2013/14 approved in February 2013 was £1,201k, to which £1,385k of projects

were added during the year.

Projects which are completed within the financial year can be carried forwards. These ongoing costs, and their relevant funding, are called "slippage". This year £995k of projects are being carried forwards as table opposite shows.

| | | Funding Arrangements | | | |
|-----------------------------------|-------|----------------------|----------|-----------|---------|

Current Issues

Completed projects include

- The Veterans in Communities project to convert premises at Haslingden into training and support facilities. The total capital cost of £26k was funded by an MoD grant.
- The Stacksteads cycleway opened at the very end of March, despite some terrible conditions following the bad weather early in the year. This was funded from £143k of grants from Natural England grant and the Lancashire Environmental Fund (LEF).
- Snig Hole park in Helmshore received a £168k upgrade with funds from LEF and S106s.
- Implementation of the IDOX software has been extended to include specialist data transfer support at a cost of £26k which is being funded from future Minimum Revenue Provision charges.

Minimum Revenue Provision

The capital programme on the previous page planned to finance £240k of costs from internal borrowing in 2013/14, though slippage of the vehicle replacement plans reduced this to £81k. Internal borrowing is paid back over the life of the assets from the revenue account (known as the Minimum Revenue Provision or MRP) and the original budget for this in 2013/14 was £675k, of which £445k related specifically to operational vehicles and equipment and £11k was for the new desktop virtualisation project. The actual charge for 2013/14 was £629k.

| Minimum Revenue Provision (MRP) | MRP Budget 2013/14 | Actual 2013/14 | Variance (Adv)/Fav 2013/14 | Forecast | Impact of 2013/14 additions | MRP forecast 2014/15 |

| Cost of Collection Allowance | - | 101 |
| | 28,468 | 13,939 |
| Surplus / (deficit) Council Tax | 334 | (378) |

Collection Fund

Improved collection rates (see below) and a lower level of appeals that anticipated have contributed to an overall surplus of £334k on the council tax. Rossendale's element of this will be £55k.

Although collection performance on business rates has been good the council has made a prudent £460k provision for the anticipated impact of the appeals lodged with the Valuation Office but not yet determined. This has meant that the business rates have finished the year on an overall deficit of £378k, with Rossendale's element being £151k, which will effectively be a charge to revenue in 2015/16.

Local retention of Local Business Rates (NNDR)

| Busines | Business Rates Income & Expenditure | | | |
|------------|--|---------|--|--|
| Business | Rates collected within the Rossendale | 13,561 | | |
| Less | Provision for bad debts & appeals | (1,335) | | |
| | Cost of Collection | (101) | | |
| Net Busi | 12,125 | | | |
| | ale Borough Council Business Rates Precept pon initial estimates under the new operating regime) | 5,001 | | |
| Less | Central Government Tariff | (3,155) | | |
| Compre | hensive Income/Expenditure - Retained Business Rates | 1,846 | | |
| | Budgeted share of Business Rates after tariff (based on former central government settlement principles) | | | |
| Deficit fo | or Retained Business Rates under the new regime | 58 | | |

Rossendale's share of business rates is £5,001k, from which we pay a central government tariff of £3,155k. The net £1,846k represents a shortfall of £58k against the original budget under the former national pool. This has been met from grant of £370k received on the extension of enhanced relief for small businesses.

Glossary

Capita Asset Services (formerly Sector)

Capita Asset Services (formerly Sector) is the company which provides the Council with Treasury Management advice, including daily market reports and predictions, credit rating updates, interest rate forecasts and annual reviews of our strategy and practices ahead of the February reports to Full Council. The Capita model investment portfolio is the benchmark by which we measure our investment performance.

Capital expenditure

Spending on the acquisition or maintenance of assets either directly by the Council or indirectly in the form of grants to other persons or bodies. Expenditure that does not fall within the definition must be charged to a revenue account.

Capital Receipts

Proceeds from the sale of fixed assets, such as land or buildings, or the repayment of capital grants or advances.

Cash & Cash Equivalents

Cash deposits are those which provide instant access to the funds without significant penalty or loss of interest. For the Council this is the balance on the NatWest account. This is in comparison to short- and long-term *Investments* in which funds are untouchable during the life of the deposit.

Consumer Price Index (CPI)

The consumer price index (CPI) is a measure estimating the average price of consumer goods and services purchased by households. It is a price index determined by measuring the price of a standard group of goods meant to represent the typical market basket of a typical urban consumer and how this changed in the previous 12 months.

Compulsory Purchase Order (CPO)

Compulsory acquisition of key properties in accordance with the Council's regeneration agenda. Compensation must be paid to the property owners, but where they cannot be traced the Council must deposit the funds with the courts for a minimum of 12 years.

Earmarked Reserves

Cash-backed funds identified to fund specific projects in the future.

Full Time Equivalent (FTE)

Each full-time post within the Council works 37 hours per week. Part-time posts are expressed in relation to this, for example a post working 4 days a week would be 0.8FTE.

General Fund

The main revenue fund of the Council. Spending on services is met from the General Fund. Spending on the provision of housing, however, must be charged to a separate Housing Revenue Account.

Government Grants Unapplied

Grants received in advance – these will be released into capital or revenue once projects come online.

Housing Market Renewal (HMR)

Grant received to improve and renew the housing stock within the Bacup and Stacksteads area. Also referred to as Elevate and now run by the Regenerate Pennine Lancashire team.

| Responsible Section/Team | Financial Services | Page | 34 |

| Responsible Author | Finance Manager | Version | 1 |
| Date last amended | June 2014 | Due for review | July 2014 |

Investments

The Council invests surplus cash in short- and long-term deposits in accordance with the Treasury Management Strategy and Practices revised in February each year. In this context short-term includes anything up to 365 days, and long-term is for more than one year. Funds deposited in such investments are not accessible until the end of the agreed terms.

Local Authority Business Growth Incentive Scheme (LABGIS)

This is a means to reward Councils for increases in the rateable value of business properties above a certain threshold. Rossendale has received this for the first time in 2006/07 and used the extra income to create a Reserve for future Economic Development activity.

Local Strategic Partnership (LSP)

The Local Strategic Partnership brings together local representatives from the public, private, community, voluntary and faith sectors to deliver a better quality of life in Rossendale, as set out in the Sustainable Community Strategy 2008-2018.

Medium Term Financial Strategy (MTFS)

The Council's financial planning document for the foreseeable future.

Minimum Revenue Provision (MRP)

The minimum amount which must be charged to the Council's revenue account each year and set aside as provision for credit liabilities, as required by the Local Government and Housing Act 1989.

National non-domestic rates (NNDR)

National non-domestic rates for commercial premises are set annually by the government and collected by all local authorities. The proceeds are redistributed through the Central Formula Grant.

Provision

Cash 'put aside' for expenditure on an intended project which is not commenced or complete at the yearend. This may include accumulating provisions, such as a vehicle replacement provision, and one-off projects.

Provisional

Best forecast given current knowledge.

Reserve

Amounts included in one financial year's accounts to provide for payment for goods or services, whether revenue or capital, in a future financial year.

Revenue account

An account that records an authority's day-to-day expenditure and income on such items as salaries and wages and other running costs of services.

Retail Price index (RPI) and (RPIX)

The Retail Price Index (RPI) is a measure of inflation published monthly by the Office for National Statistics. It measures the change in the cost of a basket of retail goods and service and is used by the government as a base for various purposes, such as the indexation of pensions, social housing rent increases and many employers also use it as a starting point in wage negotiations

RPIX is the RPI excluding mortgage interest payments.

Section 106 Agreement

Planning agreement whereby developers make a contribution towards specific projects linked to their development as a condition of planning application approval. Deposits may be for revenue or capital schemes, but application of the funds are dependent on firstly the developer, and then the Council, pursuing the projects specified within the agreement.
