Further meetings will be held in September and November and February.

Also at the meeting, the Committee received the Integrated Performance Report Quarter 4 which was a very positive report and letters of thanks were sent to those service areas who had exceeded their end of year targets.

The Committee received the Sickness Absence Report which highlighted action taken to address sickness absence within the Council.

Two further meetings were held on 19 July and 3 August, when the Director of Customers and Communities gave a presentation on the purpose of the meetings, which was to investigate and discuss where and how savings could be made across the Council’s priority areas.

The first meeting looked at the following two priorities:

- Keeping our Borough Clean, Green and Safe
- Encouraging Healthy and Respectable Communities

The second meeting looked at the rest of the priorities which were as follows:

- Providing Value for Money
- Promoting the Borough
- Delivering Quality Services to our Customers
- Delivering Regeneration across the Borough
Members were also asked to discuss possible impacts of any savings and provide feedback on the findings.

The Director of Customers and Communities informed Members of the savings the Council had already made in relation to both the above priorities and clarified the funding that had already been cut by Central Government and the future cuts we expected to have to make.

Members were then asked to break into groups to focus on the following:

a) Services which are considered to be the most important; and
b) Services which could be delivered differently, less, or not at all, to save money

A report would be presented to Cabinet in September highlighting the process of the consultation and ideas on how savings could be made.
