The Chair indicated that once a response had been received, the Scrutiny Support Officer would circulate it to Members.

As this was the last meeting in the Municipal year, the Chair thanked all Members for their contribution.

7. **PERFORMANCE MANAGEMENT REVIEW**

The Head of People and Policy presented a report which members were asked to consider in relation to a review of current and future Performance Management arrangements and proposals of Performance Management arrangements to be carried out in 2011/12.

The new Government had announced a number of changes to the way Local Government Authorities produced and published performance management data. The new arrangements called for more transparency of data as well as the abolition of National Indicators. The Use of Resources and CPA inspection regimes had also been removed.

A new single dataset had been published to be used by local authorities as a guideline of what needs to be recorded and reported to Government departments across Whitehall. In addition, Local Authorities needed to ensure they had robust arrangements in place, so they could measure if they were providing high quality value for money services.

As part of the development of the new arrangements the Principal Policy Officer had met with Heads of Service to review the current extent and content of performance indicators within each of their service areas for future priority needs.

The Head of People and Policy indicated that it was an opportunity for Members to reduce, amend or add to the indicators, another option was to consider adding in other performance reporting arrangements. In
addition, other partners including Lancashire County Council were reviewing which indicators would need to be maintained.

There was general agreement that this was an opportunity to streamline performance reporting and incorporate some of the Council’s major partners into the performance report and there was an agreement that due to sensitive information partners such as Rossendale Transport and some aspects of the Leisure Trust should be kept separate.

The Council was linking into other local authorities to agree some areas for data comparison to enable them to benchmark against each authority.

Members discussed the list of Performance Indicators and agreed that some of the indicators which were proposed to be deleted were important and linked into both health and housing. Therefore, the Head of People and Policy agreed to produce ‘clusters’ of indicators which embraced those themes which Members had prioritized including health, housing, and economy etc.

Members discussed the role of elected Members as Champions, indicating the need to receive reports on their work as Young People’s Champion and Older People’s Champion. There was also a suggestion that the Council look into having a Disability Champion. It was agreed that the Young People’s Champion and the Older Person’s Champion report back to a future Overview and Scrutiny Committee.

It was agreed that a further report be brought to the next meeting in June with the additional comments made by Members to be incorporated into the report.

Resolved:

2. That Performance Overview and Scrutiny Committee agree the list of performance indicators each team had suggested, but with amendments as agreed at the meeting to be reported to a future Overview and Scrutiny Committee.

3. That Performance Overview and Scrutiny Committee agreed to the reduction of registered users of Covalent.

4. That Performance Overview and Scrutiny agree to changes in the way performance was currently reported in the Quarterly Integrated Report, to include major partners such as Capita and Green Vale Homes, but that Rossendale Transport and Leisure be reviewed separately.
