1.0 Background

1.1 The National Fraud Initiative (NFI) is a data matching exercise coordinated by the Audit Commission that compares electronic data from local authorities, health authorities and other public bodies and more recently, private sector bodies associated with housing. All these organisations/agencies have a statutory responsibility to submit their data. The data is processed and matched at a central location.

1.2 As far as Rossendale Borough Council is concerned, the data sets include:-
   - payroll;
   - creditors payment history and standing data;
   - insurance claims;
   - licences with respect to market traders and taxi drivers and personal licences to supply alcohol;
   - concessionary travel passes;
   - council tax; and
   - the electoral roll.

1.3 Housing Benefit is collected, on the Authority’s behalf from the Department for Work and Pensions (DWP). The Audit Commission has now included housing associations in the NFI exercise and as the Authority’s housing stock has been transferred to a housing association, the Audit Commission will request the housing association to supply the relevant data.

1.4 Concessionary travel pass data is submitted by Lancashire County Council.

1.5 In advance of the NFI exercise, usually in May of the relevant year, the Audit Commission sets out the timetable of events.

1.6 Authorities are required to submit certain returns by set dates, i.e.
   (i) Details of key contacts; and
   (ii) A data protection return.

1.7 In advance of downloading data, consultation procedures need to be carried out with the relevant staff associations/ unions. Details of the NFI exercise are included in employees’ payslip notification. At least six weeks before the “data downloading” date, the Payroll Manager is informed of the NFI exercise, to establish exactly what information is to be included and set in motion the payslip notification process. Similarly, the finance team are contacted regarding the creditors data.
1.8 At the same time, the Information, Communications and Technology (ICT) team is informed of the technical requirements of the NFI exercise in order to make the necessary arrangements.

1.9 Data is uploaded automatically to the Audit Commission secure website in October.

1.10 The following January/February, data is received back for internal audit to follow up, either directly, or in conjunction with the relevant service managers. Resources are also needed to respond to requests from other authorities where they have received information relating to Rossendale Borough Council (RBC).

2.0 Timetable of Events

2.1 The following table helps to illustrate the timetable of events:-

<table>
<thead>
<tr>
<th>National Fraud Initiative</th>
<th>Timetable of Events</th>
</tr>
</thead>
<tbody>
<tr>
<td>May Year 1</td>
<td>Notification issued by the Audit Commission informing all participating bodies of commencement of the next exercise. Data sets to include, payroll, creditors, licences, insurance, etc.</td>
</tr>
<tr>
<td>June – October Year 1</td>
<td>Collection and preparation of data relating to payroll, creditors, licences, insurance, etc.</td>
</tr>
<tr>
<td>October Year 1</td>
<td>Submission of payroll, creditors, licences, insurance, etc data by secure upload facility to a secure website.</td>
</tr>
<tr>
<td>January/February Year 2</td>
<td>Audit Commission releases the results of the matches relating to payroll, creditors, licences, insurance, etc to participating bodies electronically via a secure website.</td>
</tr>
<tr>
<td>February Year 2 to January Year 3</td>
<td>Investigation of results by participating bodies. Results of the investigations recorded on the secure website.</td>
</tr>
</tbody>
</table>
### May Year 2
Notification issued by the Audit Commission informing all participating bodies of commencement of the next exercise. Data sets include council tax and the electoral roll.

### June – October Year 2
Collection and preparation of council tax and electoral roll data.

### October Year 2
Submission of council tax and electoral roll data by secure upload facility to a secure website.

### January Year 3
Conclusion of the first NFI exercise relating to the payroll, creditors, licences, insurance, etc data.

### February Year 3
Audit Commission releases the results of the matches relating to council tax and electoral roll matches to participating bodies electronically via a secure website.

### February Year 3 to January Year 4
Investigation of results by participating bodies. Results of the investigations recorded on the secure website.

### May Year 3
Release of the Audit Commission report to Directors of Finance outlining the findings from the first NFI exercise.

### May Year 3
The cycle begins again.

## 3.0 Audit Investigation

### 3.1
The core of NFI is the matching of data to help reduce the level of fraud by bringing together data from local authorities, NHS bodies, government departments and other agencies, to detect a wide range of frauds against the public sector. These include council tax fraud, housing benefit fraud, occupational pension fraud and tenancy fraud. Therefore for RBC, the high priority matches are likely to be those which relate to current RBC council tax and housing benefit claimants.

### 3.2
Other reports produced include the following, each classified by the Audit Commission according to priority:

- Payroll to payroll (within RBC) i.e. RBC staff with two posts;
- Pensions to payroll (within RBC) i.e. on pension and RBC salary;
Audit and Accounts Committee Report:
National Fraud Initiative
15 June 2011

- Payroll to payroll i.e. RBC full time post and post elsewhere outside RBC, or vice versa; and
- Payroll to Asylum Seekers.

3.3 Depending on the merits of individual cases, consideration is given to referring cases to the Police for further investigation. In less serious cases, attempts are made to recover overpayments by the relevant service.

3.4 Periodically, the Audit Commission views each participating bodies' secure website to ascertain whether progress is being made in investigations and whether any errors or frauds have been detected following the investigations. A key role for Internal Audit is to regularly monitor and review the progress of the investigation ourselves and if necessary speak to the officers concerned to ensure the matches are investigated as fully as possible.

3.5 This culminates in a report to the Audit and Accounts Committee in June outlining the outcomes of the exercise.
