We carry out Community Impact Assessments to analyse the effects of our decisions, policies or practices. The CIA should be undertaken/started at the beginning of the policy development process – before any decisions are made.

1. Overview

The main aims/objectives of this policy¹ are:
Review the items currently collected by our contracted clinical waste collection service and divert appropriate items to our mainstream waste collection service to reduce the cost of the clinical waste contract, and reduce the visible impact of customers having to present clinical waste in yellow bags.

(Refer to **CIA Guidance** for details)

2. Equality Impact

Using the table below please indicate whether the policy/strategy/decision has a positive, negative or no impact **from an Equalities perspective** on any of the protected equality groups listed below. **Please also give consideration to wider equality of opportunity and community cohesion impacts within and between the groups identified. If you have identified any negative impact and mitigating actions are not sufficient, you will need to complete a Full Community Impact Assessment.**

Equality		Positive Impact (It could benefit)	Negative Impact (It could disadvantage)	Reason and any mitigating actions already in place (to reduce any adverse /negative impacts or reasons why it will be of positive benefit or contribution)	No Impact
Age	Older people	<input type="checkbox"/>	<input type="checkbox"/>		<input checked="" type="checkbox"/>
	Younger people and children	<input type="checkbox"/>	<input type="checkbox"/>		<input checked="" type="checkbox"/>
Disability	Physical/learning/mental health	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Those people with temporary or permanent illnesses, disabilities or injuries who require a clinical waste collection service currently have to present their clinical waste in bright yellow bags outside for collection. The presence of these bags highlights the fact that they have clinical needs. Most of this waste can now be collected as part of the mainstream waste collection service and can be put directly into a green wheelie bin, thus reducing the need for customers to present additional yellow bags and allowing the waste to be collected more discreetly.	<input type="checkbox"/>
