1.	RECOMMENDATION(S)
1.1	Members approve the revised Treasury Management Strategy Statement and the Treasury Management Policy and Practices.
1.2	Members are asked to delegate any further minor changes to the Head of Finance in consultation with the Portfolio Holder for Resources and Performance.
1.3	Members are asked to authorise the Head of Finance to take advantage of any prepayment options offered, as noted in paragraph 5.9, in consultation with the Portfolio Holder for Resources and Performance.

2. PURPOSE OF REPORT

- 2.1 The purpose of the report is to obtain approval of the updated Treasury Management Strategy Statement (TMS) and Treasury Management Policy and Practices (TMP).

3. CORPORATE PRIORITIES

- 3.1 The matters discussed in this report impact directly on the following corporate priorities:
- **Regenerating Rossendale:** This priority focuses on regeneration in its broadest sense, so it means supporting communities that get on well together, attracting sustainable investment, promoting Rossendale, as well as working as an enabler to promote the physical regeneration of Rossendale.
 - **Responsive Value for Money Services:** This priority is about the Council working collaboratively, being a provider, procurer and a commissioner of services that are efficient and that meet the needs of local people.
 - **Clean Green Rossendale:** This priority focuses on clean streets and town centres and well managed open spaces, whilst recognising that the Council has to work with communities and as a partner to deliver this ambition.

4. RISK ASSESSMENT IMPLICATIONS

- 4.1 All the issues raised and the recommendation(s) in this report involve risk considerations as set out below:
- Failure to comply with legal statute, Codes of Practice and regulations of the Council.
 - Financial risks and credit risks exposure as a result of treasury management

decisions. The TMS lays the ground rules for balancing the desire to maximize interest earning capacity with the potential risks of investments in the financial sector, especially in the current economic climate.

5. BACKGROUND AND OPTIONS

- 5.1 This is an annual update of the Treasury Management Strategy Statement (Appendix 1) and the Treasury Management Policy and Practices (Appendix 2), based upon the Chartered Institute of Public Finance and Accountancy's (CIPFA) Code of Practice on Treasury Management (revised November 2009) which was adopted by this Council on 24th February 2010.
- 5.2 Treasury management is concerned with how organisations manage their cash resources and its scope covers borrowing, investment and hedging instruments and techniques. Risk is inherent in all treasury management activities and it is necessary to balance risk and return. In the public services it is generally considered that the priority is to protect capital rather than maximize return.
- 5.3 The suggested Treasury Management Strategy Statement for 2017/18 at Appendix 1 is written in conjunction with both the Revenue Budget for 2017/18 and the Capital Resources and Capital Programme 2017/18 to 2019/20 which are also being placed before this committee, specifically in respect of the TMSS at Appendix 1:-
- Capital Expenditure at 2.1
 - Capital Resources at 2.1
 - Minimum Revenue Provision (MRP) revenue repayments at 2.3
 - Interest income expectations which are based upon the officers' views on interest rates, supplemented with leading market forecasts provided by the Council's treasury adviser, Capita Asset Services at 3.3.
- 5.4 The interest rates quoted on pages 10 and 22 of the Strategy reflect the average of samples gathered by Capita Asset Services on the 23rd January 2017 from city and non-city forecasters, including HM Treasury. It should be noted that there is a large range in those forecasts, and the average is at best an educated estimate in today's financial climate. Whilst forecasters are comparatively confident about their estimates for the coming financial year, those for longer term are far less reliable. In light of their forecast for interest rates to remain static until 2019, Council officers have recently taken a more active strategy of exploring alternative investment options with the Council's related parties and subsidiaries.
- 5.5 The Treasury Management Strategy Statement covers:
- treasury controls and reporting mechanisms required to limit the treasury risk and activities of the Council
 - Prudential and Treasury Indicators (items 2.1 and 2.2)
 - the current treasury position (2.4)
 - the borrowing requirement (3.1)
 - prospects for interest rates (3.3)
 - the borrowing strategy (3.4)
 - policy on borrowing in advance of need (3.5)
 - debt rescheduling (3.6)
 - the investment strategy (4.4)
 - creditworthiness policy (4.2)
 - policy on use of external service providers (1.5)
 - the MRP strategy (2.3)
 - treasury management scheme of delegation and the relevant roles and

responsibilities of delegated officers (5.5)

- 5.6 As part of the Council's budget-setting work the estimates of future interest rates, capital resources and expenditure and capital financing costs (through the Minimum Revenue Provision) have been included in arriving at a balanced budget for 2017/18.
- 5.7 The Treasury Management Policy and Practices at Appendix 2 provide further operational detail on the plans within the Treasury Management Strategy Statement. For 2017/18 there have been only very minor amendments to the Treasury Management Policy and Practices to cover the works with related parties and subsidiaries and to keep it in line with updates in the TMSS above.
- 5.8 The Treasury Management Practices cover
- risk management arrangements and techniques
 - performance measurement
 - decision making and operational controls within the day to day administration of treasury and cash flow management
 - measures to prevent money laundering
 - training requirements for staff included within the delegation arrangements in the Treasury Management Strategy Statement
 - further details on the use of external service providers
- 5.9 The other alternative use of resources open to the Head of Finance is the pre-payment of revenue creditors in order to achieve early payment discounts. These transactions are not treated as investments, therefore do not fall under the TMS or TMPs in the appendices attached. However, the same considerations of risk and reward should be considered prior to entering into any such agreement. The Head of Finance must be sure of the nature and obligation of the future transactions, their expected value and the credit worthiness of the supplier/counterparty involved.

One such opportunity is currently being explored in relation to discounts available in relation to the prepayment of the Council's future pensions liabilities to the Lancashire Local Government Pension Scheme (LLGPS). The latest actuarial review estimates the Councils total contributions to be £4,907,400 over the three years 2017/20 being a mix of future service costs and deficit recovery payments £1.7m and £3.2m respectively). These costs form part of the Councils Medium Term Financial Strategy (MTFS) forecast.

The actuary has offered a discount of £307,700 in return for a prepayment of costs of £4,599,700 to be paid in May 2017. Given the forecast interest rates the and therefore interest foregone the net saving is calculated at £301,900 over the three year period. This saving is not currently factored into the Council's MTFS.

The risks around this strategy being, amongst others:

- Overpayment of contributions cannot be returned. Officers estimate that Future service payment estimate is on the low side
- An unexpected increase in bank base rates. Officers nor our financial advisors currently anticipate this to be the case.
- Agreeing the accounting treatment with external auditors. This will be clarified prior to any payment.
- An unexpected reduction in cash balances. Given forecast interest rates and the Treasury Strategy the Council will have access to any short term borrowing at low rates.

6. SECTION 151 OFFICER

6.1 Financial matters are dealt within the report

7. MONITORING OFFICER

7.1 There are no material implications

8. POLICY IMPLICATIONS AND CONSULTATION CARRIED OUT

8.1 Consultation has been with the Council's treasury management advisors, Capita Asset Services.

8.2 The Council's treasury management advisors, Capita Asset Services, have ensured that the documents attached meet the requirements of the current Chartered Institute of Public Finance and Accountancy's (CIPFA) Code of Practice on Treasury Management.

9. CONCLUSION

9.1 Recommend adoption of the updated Treasury Management Strategy Statement and Treasury Management Policy and Practices, which will ensure continued compliance with the Code and continue to contain the Councils exposure to financial risk.

Treasury Management Strategy Statement 2017/18

1 INTRODUCTION

1.1 Background

The Council is required to operate a balanced budget, which broadly means that cash raised during the year will meet cash expenditure. Part of the treasury management operation is to ensure that this cash flow is adequately planned, with cash being available when it is needed. Surplus monies are invested in low risk counterparties or instruments commensurate with the Council's low risk appetite, providing adequate liquidity initially before considering investment return.

The second main function of the treasury management service is the funding of the Council's capital plans. These capital plans provide a guide to the borrowing need of the Council, essentially the longer term cash flow planning to ensure that the Council can meet its capital spending obligations. This management of longer term cash may involve arranging long or short term loans, or using longer term cash flow surpluses. On occasion any debt previously drawn may be restructured to meet Council risk or cost objectives.

CIPFA defines treasury management as:

"The management of the local authority's investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks."

1.2 Reporting requirements

The Council is required to receive and approve, as a minimum, three main reports each year, which incorporate a variety of policies, estimates and actuals. These reports are required to be adequately reviewed and scrutinised by committee before being recommended to the Council. This role is undertaken by the Cabinet.

Prudential and Treasury Indicators and Treasury Strategy (This report) - The first, and most important report covers:

- the capital plans (including prudential indicators);
- a Minimum Revenue Provision Policy or MRP (how residual capital expenditure is charged to revenue over time);
- the Treasury Management Strategy (how the investments and borrowings are to be organised) including treasury indicators; and
- an investment strategy (the parameters on how investments are to be managed).

A Mid Year Treasury Management Report – This will update members with the progress of the capital position, amending prudential indicators as necessary, and whether the treasury strategy is meeting the strategy or whether any policies require revision. This is included within the Council's regular financial monitoring reports presented to the Cabinet.

An Annual Treasury Report – This provides details of a selection of actual prudential and treasury indicators and actual treasury operations compared to the estimates within the strategy. This is included within the Council's end of year financial monitoring report presented to the Cabinet.

Scrutiny

The above reports are required to be adequately scrutinised before being recommended to the Council. This role is undertaken by the Cabinet.

Treasury Management Strategy Statement 2017/18

1.3 Treasury Management Strategy for 2017/18

The strategy for 2017/18 covers two main areas:

Capital Issues

- the capital plans and the prudential indicators;
- the Minimum Revenue Provision (MRP) strategy.

Treasury management Issues

- the current treasury position;
- treasury indicators which will limit the treasury risk and activities of the Council;
- prospects for interest rates;
- the borrowing strategy;
- policy on borrowing in advance of need;
- debt rescheduling;
- the investment strategy;
- creditworthiness policy; and
- policy on use of external service providers.

These elements cover the requirements of the Local Government Act 2003, the CIPFA Prudential Code, the CLG MRP Guidance, the CIPFA Treasury Management Code and the CLG Investment Guidance.

1.4 Training

The CIPFA Code requires the responsible officer to ensure that members with responsibility for treasury management receive adequate training in treasury management. This especially applies to members responsible for scrutiny. Financial training for members is undertaken each year in June.

The training needs of treasury management officers are reviewed annually.

1.5 Treasury management consultants

The Council uses Capita Asset Services, Treasury solutions as its external treasury management advisors.

The Council recognises that responsibility for treasury management decisions remains with the organisation at all times and will ensure that undue reliance is not placed upon our external service providers.

It also recognises that there is value in employing external providers of treasury management services in order to acquire access to specialist skills and resources. The Council will ensure that the terms of their appointment and the methods by which their value will be assessed are properly agreed and documented, and subjected to regular review.

2 THE CAPITAL PRUDENTIAL INDICATORS 2017/18 – 2019/20

The Council's capital expenditure plans are the key driver of treasury management activity. The capital expenditure plans are reflected in prudential indicators, which are designed to assist members overview and confirm capital expenditure plans.

2.1 Capital Expenditure

This prudential indicator is a summary of the Council's capital expenditure plans, both those agreed previously, and those forming part of this budget cycle.

Capital Expenditure	2015/16 Actual £000	2016/17 Estimate £000	2017/18 Estimate £000	2018/19 Estimate £000	2019/20 Estimate £000
Operations & Communities	182	298	559	30	30
Customer Services & IT	53	67	-	-	-
Regeneration (<i>incl Spinning Point & THI</i>)	309	756	6,888	-	-
Corporate Services and Buildings	680	1,360	375	125	125
Housing	450	934	760	560	560
Total	1,674	3,415	8,582	715	715

Other long term liabilities

The council has only one other long-term liability in the form of a 25-year PWLB loan, for which the annual repayment of principal is £184k.

The table below summarises the above capital expenditure plans and how these plans are being financed by capital or revenue resources. Any shortfall of resources results in a funding need (borrowing). The main borrowing need for 2017/18 refers to the Spinning Point project, which will be funded over the economic life of the asset and met from operating income.

Capital Resources	2015/16 Actual £000	2016/17 Estimate £000	2017/18 Estimate £000	2018/19 Estimate £000	2019/20 Estimate £000
Financed by:					
Capital receipts	160	69	1,014	55	55
Capital grants	782	1,712	6,027	560	560
Earmarked reserves		336	301	-	-
Revenue	250	153	100	100	100
Therefore Net financing need for year	482	1,145	1,140	-	-

2.2 The Council's Borrowing Need (the Capital Financing Requirement)

The second prudential indicator is the Council's Capital Financing Requirement (CFR). The CFR is simply the total historic outstanding capital expenditure which has not yet been paid for from either revenue or capital resources. It is essentially a measure of the Council's underlying borrowing need. Any capital expenditure above, which has not immediately been paid for, will increase the CFR.

The CFR does not increase indefinitely, as the minimum revenue provision (MRP) is a statutory annual revenue charge which broadly reduces the borrowing need in line with each assets life.

The CFR includes any other long term liabilities (e.g. PFI schemes, finance leases) brought onto the balance sheet. Whilst this increases the CFR, and therefore the Council's borrowing requirement, these types of scheme include a borrowing facility and so the Council is not

Responsible Section/Team	Financial Services	Page	5
Responsible Author	Head of Finance	Version	v1
Date last amended	February 2017	Due for review	Feb 2018

Treasury Management Strategy Statement 2017/18

required to separately borrow for these schemes. The Council currently has no such schemes within the CFR.

The Council is asked to approve the CFR projections below:

Capital Financing Requirement	2015/16 Actual £000	2016/17 Estimate £000	2017/18 Estimate £000	2018/19 Estimate £000	2019/20 Estimate £000
Opening CFR	8,424	8,315	8,787	9,254	8,559
Movement in CFR	(109)	472	467	(695)	(695)
Closing CFR	8,315	8,787	9,254	8,559	7,864
Movement in CFR is represented by					
Net financing need for the year (above)	482	1,145	1,140	-	-
Less MRP and other financing movements	(591)	(673)	(673)	(695)	(695)
Movement in CFR	(109)	472	467	(695)	(695)

2.3 Minimum Revenue Provision Policy Statement

The Council is required to pay off an element of the accumulated General Fund capital spend each year (the CFR) through a revenue charge (the Minimum Revenue Provision - MRP), although it is also allowed to undertake additional voluntary payments if required (voluntary revenue provision - VRP).

DCLG Regulations have been issued which require the full Council to approve **an MRP Statement** in advance of each year. A variety of options are provided to councils, so long as there is a prudent provision. The Council is recommended to approve the following MRP Statement :

Since the 1st April 2008 all unsupported borrowing (including PFI and finance leases when applicable) has been repaid using the following MRP policy:

- **Asset Life Method** – MRP will be based on the estimated life of the assets, in accordance with the proposed regulations (this option must be applied for any expenditure capitalised under a Capitalisation Direction);

This provides for a reduction in the borrowing need over approximately the same term as the asset's life.

2.4 Core funds and expected investment balances

The application of resources (capital receipts, reserves etc.) to either finance capital expenditure or other budget decisions to support the revenue budget will have an ongoing impact on investments unless resources are supplemented each year from new sources (asset sales etc.). Detailed below are estimates of the year end balances for each resource and anticipated day to day cash flow balances.

Responsible Section/Team	Financial Services	Page	6
Responsible Author	Head of Finance	Version	v1
Date last amended	February 2017	Due for review	Feb 2018

Treasury Management Strategy Statement 2017/18

Year-end Resources	2015/16 Actual £000	2016/17 Estimate £000	2017/18 Estimate £000	2018/19 Estimate £000	2019/20 Estimate £000
General Fund balance	1,000	1,000	1,000	1,000	1,000
Earmarked reserves~	8,796	6,146	5,052	3,071	2,100
Capital receipts	1,800	1,079	435	430	425
Government Grants Unapplied	1,194	478	338	338	338
Total core funds	12,790	8,703	6,825	4,839	3,863
Working capital*	(7,305)	(5,588)	(5,254)	(4,822)	(4,300)
Under/(over) borrowing (see 3.1)	4,819	3,885	3,529	3,133	2,637
Expected cash at bank & investments#	10,304	7,000	5,100	3,150	2,200

~ Earmarked Reserves shown excludes the investment in Rossendale Transport Ltd.

* Working capital balances shown are estimated year end; these may be higher mid-year

Given the Council's current banking portfolio, the Cash and Cash Equivalents has been combined with Investments, rather than being shown as part of the working capital

2.5 Affordability Prudential Indicators

The previous sections cover the overall capital and control of borrowing prudential indicators, but within this framework prudential indicators are required to assess the affordability of the capital investment plans. These provide an indication of the impact of the capital investment plans on the Council's overall finances. The Council is asked to approve the following indicators:

2.6 Ratio of financing costs to net revenue stream.

This indicator identifies the trend in the cost of capital (borrowing and other long term obligation costs net of investment income) against the net revenue stream.

Ratio of financing costs to net revenue stream	2015/16 Actual £000	2016/17 Estimate £000	2017/18 Estimate £000	2018/19 Estimate £000	2019/20 Estimate £000
Interest Payable	163	157	149	140	138
Interest Receivable	(86)	(85)	(82)	(80)	(78)
Net cost of capital	77	72	67	60	60
Net Revenue Stream	8,281	5,670	4,659	4,655	4,653
Ratio of financing costs to net revenue stream	0.93%	1.27%	1.44%	1.29%	1.29%

The estimates of financing costs include current commitments and the proposals in this budget report.

2.7 Incremental impact of capital investment decisions on council tax.

This indicator identifies the revenue costs associated with proposed changes to the three year capital programme recommended in this budget report compared to the Council's existing approved commitments and current plans. The assumptions are based on the budget, but will invariably include some estimates, such as the level of Government support, which are not published over a three year period.

Responsible Section/Team	Financial Services	Page	7
Responsible Author	Head of Finance	Version	v1
Date last amended	February 2017	Due for review	Feb 2018

Treasury Management Strategy Statement 2017/18

Incremental impact of capital investment decisions on council tax	2015/16 Actual	2016/17 Estimate	2017/18 Estimate	2018/19 Estimate	2019/20 Estimate
Band D Equivalent number of properties	19,494	19,678	19,998	20,145	20,289
Effect on Council Tax - band D	-£0.01	£0.02	£0.02	-£0.03	-£0.03

The above simply represents the movement of the net financing need (as above) over the life of the asset divided by the Band D tax base. The impact of such financing has in fact been offset by other operational savings.

Date last amended	February 2017	Due for review	Feb 2018

Treasury Management Strategy Statement 2017/18

3 BORROWING

The capital expenditure plans set out in Section 2 provide details of the service activity of the Council. The treasury management function ensures that the Council's cash is organised in accordance with the the relevant professional codes, so that sufficient cash is available to meet this service activity. This will involve both the organisation of the cash flow and, where capital plans require, the organisation of appropriate borrowing facilities. The strategy covers the relevant treasury / prudential indicators, the current and projected debt positions and the annual investment strategy.

3.1 Current Portfolio Position

The Council's treasury portfolio position at 31 March 2016, with forward projections are summarised below. The table shows the actual external debt (the treasury management operations), against the underlying capital borrowing need (the Capital Financing Requirement - CFR), highlighting any over or under borrowing.

Current Borrowing Position	2015/16 Actual £000	2016/17 Estimate £000	2017/18 Estimate £000	2018/19 Estimate £000	2019/20 Estimate £000
Debt at 1 April	3,680	3,496	3,312	3,128	2,944
Expected change in Debt	(184)	(184)	(184)	(184)	(184)
Actual gross debt at 31 March	3,496	3,312	3,128	2,944	2,760
Capital Financing Requirement	8,315	7,197	6,657	6,077	5,397
Under / (over) borrowing	4,819	3,885	3,529	3,133	2,637

Within the prudential indicators there are a number of key indicators to ensure that the Council operates its activities within well-defined limits. One of these is that the Council needs to ensure that its gross debt, does not, except in the short term, exceed the total of the CFR in the preceding year plus the estimates of any additional CFR for 2017/18 and the following two financial years. This allows some flexibility for limited early borrowing for future years, but ensures that borrowing is not undertaken for revenue purposes.

The Head of Financial Services reports that the Council complied with this prudential indicator in the current year and does not envisage difficulties for the future. This view takes into account current commitments, existing plans, and the proposals in this budget report.

The Head of Finance reports that the Council complied with this prudential indicator in the current year and does not envisage difficulties for the future. This view takes into account current commitments, existing plans, and the proposals in this budget report.

3.2. Treasury Indicators: Limits to Borrowing Activity

The Operational Boundary. This is the limit beyond which external debt is not normally expected to exceed. In most cases, this would be a similar figure to the CFR, but may be lower or higher depending on the levels of actual debt.

Operational boundary	2016/17 Estimate £000	2017/18 Estimate £000	2018/19 Estimate £000	2019/20 Estimate £000
Debt	4,500	4,500	4,500	4,500

The Authorised Limit for external debt. A further key prudential indicator represents a control on the maximum level of borrowing. This represents a limit beyond which external debt is prohibited, and this limit needs to be set or revised by the full Council. It reflects the

Responsible Section/Team	Financial Services	Page	9
Responsible Author	Head of Finance	Version	v1
Date last amended	February 2017	Due for review	Feb 2018

Treasury Management Strategy Statement 2017/18

level of external debt which, while not desired, could be afforded in the short term, but is not sustainable in the longer term.

1. This is the statutory limit determined under section 3 (1) of the Local Government Act 2003. The Government retains an option to control either the total of all councils' plans, or those of a specific council, although this power has not yet been exercised.
2. The Council is asked to approve the following authorised limit:

Authorised limit	2016/17 Estimate £000	2017/18 Estimate £000	2018/19 Estimate £000	2019/20 Estimate £000
Debt	8,000	7,500	7,000	6,500

3.3. Prospects for Interest Rates (from Capita on 24/01/2017).

The Council has appointed Capita Asset Services as its treasury advisor and part of their service is to assist the Council to formulate a view on interest rates. The following table gives the Capita Asset Services central view.

	Dec-16	Mar-17	Jun-17	Sep-17	Dec-17	Mar-18	Jun-18	Sep-18	Dec-18	Mar-19	Jun-19	Sep-19	Dec-19	Mar-20
Bank rate	0.25%	0.25%	0.25%	0.25%	0.25%	0.25%	0.25%	0.25%	0.25%	0.25%	0.50%	0.50%	0.75%	0.75%
5yr PWLB rate	1.60%	1.60%	1.60%	1.60%	1.60%	1.70%	1.70%	1.70%	1.80%	1.80%	1.90%	1.90%	2.00%	2.00%

The Monetary Policy Committee, (MPC), cut Bank Rate from 0.50% to 0.25% on 4th August in order to counteract what it forecast was going to be a sharp slowdown in growth in the second half of 2016. It also gave a strong steer that it was likely to cut Bank Rate again by the end of the year. However, economic data since August has indicated much stronger growth in the second half 2016 than that forecast; also, inflation forecasts have risen substantially as a result of a continuation of the sharp fall in the value of sterling since early August. Consequently, Bank Rate was not cut again in November or December and, on current trends, it now appears unlikely that there will be another cut, although that cannot be completely ruled out if there was a significant dip downwards in economic growth. During the two-year period 2017 – 2019, when the UK is negotiating the terms for withdrawal from the EU, it is likely that the MPC will do nothing to dampen growth prospects, (i.e. by raising Bank Rate), which will already be adversely impacted by the uncertainties of what form Brexit will eventually take. Accordingly, a first increase to 0.50% is not tentatively pencilled in, as in the table above, until quarter 2 2019, after those negotiations have been concluded, (though the period for negotiations could be extended). However, if strong domestically generated inflation, (e.g. from wage increases within the UK), were to emerge, then the pace and timing of increases in Bank Rate could be brought forward.

Economic and interest rate forecasting remains difficult with so many external influences weighing on the UK. The above forecasts, (and MPC decisions), will be liable to further amendment depending on how economic data and developments in financial markets transpire over the next year. Geopolitical developments, especially in the EU, could also have a major impact. Forecasts for average investment earnings beyond the three-year time horizon will be heavily dependent on economic and political developments.

The overall longer run trend is for gilt yields and PWLB rates to rise, albeit gently. It has long been expected that at some point, there would be a start to a switch back from bonds to

Responsible Section/Team	Financial Services	Page	10

Treasury Management Strategy Statement 2017/18

equities after a historic long term trend over about the last twenty five years of falling bond yields. The action of central banks since the financial crash of 2008, in implementing substantial quantitative easing purchases of bonds, added further impetus to this downward trend in bond yields and rising prices of bonds. The opposite side of this coin has been a rise in equity values as investors searched for higher returns and took on riskier assets. The sharp rise in bond yields since the US Presidential election, has called into question whether, or when, this trend has, or may, reverse, especially when America is likely to lead the way in reversing monetary policy. Until 2015, monetary policy was focused on providing stimulus to economic growth but has since started to refocus on countering the threat of rising inflationary pressures as strong economic growth becomes more firmly established. The expected substantial rise in the Fed. rate over the next few years may make holding US bonds much less attractive and cause their prices to fall, and therefore bond yields to rise. Rising bond yields in the US would be likely to exert some upward pressure on bond yields in other developed countries but the degree of that upward pressure is likely to be dampened by how strong, or weak, the prospects for economic growth and rising inflation are in each country, and on the degree of progress in the reversal of monetary policy away from quantitative easing and other credit stimulus measures.

PWLB rates and gilt yields have been experiencing exceptional levels of volatility that have been highly correlated to geo-political, sovereign debt crisis and emerging market developments. It is likely that these exceptional levels of volatility could continue to occur for the foreseeable future.

The overall balance of risks to economic recovery in the UK is to the downside, particularly in view of the current uncertainty over the final terms of Brexit and the timetable for its implementation.

Apart from the above uncertainties, downside risks to current forecasts for UK gilt yields and PWLB rates currently include:

- Monetary policy action by the central banks of major economies reaching its limit of effectiveness and failing to stimulate significant sustainable growth, combat the threat of deflation and reduce high levels of debt in some countries, combined with a lack of adequate action from national governments to promote growth through structural reforms, fiscal policy and investment expenditure.
- Major national polls:
 - Italian constitutional referendum 4.12.16 resulted in a 'No' vote which led to the resignation of Prime Minister Renzi. This means that Italy needs to appoint a new government.
 - Spain has a minority government with only 137 seats out of 350 after already having had two inconclusive general elections in 2015 and 2016. This is potentially highly unstable.
 - Dutch general election 15.3.17;
 - French presidential election April/May 2017;
 - French National Assembly election June 2017;
 - German Federal election August – October 2017.
- A resurgence of the Eurozone sovereign debt crisis, with Greece being a particular problem, and stress arising from disagreement between EU countries on free movement of people and how to handle a huge influx of immigrants and terrorist threats
- Weak capitalisation of some European banks, especially Italian.
- Geopolitical risks in Europe, the Middle East and Asia, causing a significant increase in safe haven flows.
- UK economic growth and increases in inflation are weaker than we currently anticipate.

Responsible Section/Team	Financial Services	Page	11
Responsible Author	Head of Finance	Version	v1
Date last amended	February 2017	Due for review	Feb 2018

Treasury Management Strategy Statement 2017/18

- Weak growth or recession in the UK's main trading partners - the EU and US.

The potential for **upside risks to current forecasts** for UK gilt yields and PWLB rates, especially for longer term PWLB rates, include: -

- UK inflation rising to significantly higher levels than in the wider EU and in the US, causing an increase in the inflation premium in gilt yields.
- A rise in US Treasury yields as a result of Fed. funds rate increases and rising inflation expectations in the USA, dragging UK gilt yields upwards.
- The pace and timing of increases in the Fed. funds rate causing a fundamental reassessment by investors of the relative risks of holding bonds as opposed to equities and leading to a major flight from bonds to equities.
- A downward revision to the UK's sovereign credit rating undermining investor confidence in holding sovereign debt (gilts).

Investment and borrowing rates

- Investment returns are likely to remain low during 2017/18 and beyond;
- Borrowing interest rates have been on a generally downward trend during most of 2016 up to mid-August; they fell sharply to historically phenomenally low levels after the referendum and then even further after the MPC meeting of 4th August when a new package of quantitative easing purchasing of gilts was announced. Gilt yields have since risen sharply due to a rise in concerns around a 'hard Brexit', the fall in the value of sterling, and an increase in inflation expectations. The policy of avoiding new borrowing by running down spare cash balances, has served well over the last few years. However, this needs to be carefully reviewed to avoid incurring higher borrowing costs in later times when authorities will not be able to avoid new borrowing to finance capital expenditure and/or to refinance maturing debt;
- There will remain a cost of carry to any new long-term borrowing that causes a temporary increase in cash balances as this position will, most likely, incur a revenue cost – the difference between borrowing costs and investment returns.

3.4 Borrowing Strategy

The Council is currently maintaining an under-borrowed position. This means that the capital borrowing need (the Capital Financing Requirement), has not been fully funded with loan debt as cash supporting the Council's reserves, balances and cash flow has been used as a temporary measure. This strategy is prudent as investment returns are low and counterparty risk is an issue that needs to be considered.

Against this background and the risks within the economic forecast, caution will be adopted with the 2017/18 treasury operations. The Head of Finance will monitor interest rates in financial markets and adopt a pragmatic approach to changing circumstances:

- *if it was felt that there was a significant risk of a sharp FALL in long and short term rates, e.g. due to a marked increase of risks around relapse into recession or of risks of deflation, then long term borrowings will be postponed, and potential rescheduling from fixed rate funding into short term borrowing will be considered.*
- *if it was felt that there was a significant risk of a much sharper RISE in long and short term rates than that currently forecast, perhaps arising from an acceleration in the start date and in the rate of increase in central rates in the USA and UK, an increase in world economic activity or a sudden increase in inflation risks, then the portfolio position will be*

Responsible Section/Team	Financial Services	Page	12
Responsible Author	Head of Finance	Version	v1
Date last amended	February 2017	Due for review	Feb 2018

Treasury Management Strategy Statement 2017/18

re-appraised. Most likely, fixed rate funding will be drawn whilst interest rates are still lower than they will be in the next few years.

Any decisions will be reported to Cabinet at the next available opportunity.

Treasury Management Limits on Activity

There are three debt-related treasury activity limits. The purpose of these are to restrain the activity of the treasury function within certain limits, thereby managing risk and reducing the impact of any adverse movement in interest rates. However, if these are set to be too restrictive they will impair the opportunities to reduce costs / improve performance. The indicators are:

- Upper limits on variable interest rate exposure. This identifies a maximum limit for variable interest rates based upon the debt position net of investments
- Upper limits on fixed interest rate exposure. This is similar to the previous indicator and covers a maximum limit on fixed interest rates;
- Maturity structure of borrowing. These gross limits are set to reduce the Council's exposure to large fixed rate sums falling due for refinancing, and are required for upper and lower limits.

The Council is asked to approve the following treasury indicators and limits:

Treasury indicators and limits	2017/18	2018/19	2019/20
Interest rate Exposures	Upper	Upper	Upper
Limits on fixed interest rates based on net debt	100%	100%	100%
Limits on variable interest rates based on net debt	0%	0%	0%
Limits on fixed interest rates:			
• Debt only	100%	100%	100%
• Investments only	90%	90%	90%
Maturity Structure of fixed interest rate borrowing 2017/18			
	Lower	Upper	
Under 12 months	0%	30%	
12 months to 2 years	0%	10%	
2 years to 5 years	0%	0%	
5 years to 10 years	0%	0%	
10 years and above	0%	100%	
Maturity Structure of variable interest rate borrowing 2017/18			
	Lower	Upper	
Under 12 months	0%	0%	
12 months to 2 years	0%	0%	
2 years to 5 years	0%	0%	
5 years to 10 years	0%	0%	
10 years and above	0%	0%	

3.5 Policy on Borrowing in Advance of Need

The Council will not borrow more, than or in advance of its needs, purely in order to profit from the investment of the extra sums borrowed. Any decision to borrow in advance will be within forward approved Capital Financing Requirement estimates, and will be considered carefully to ensure that value for money can be demonstrated and that the Council can ensure the security of such funds.

Responsible Section/Team	Financial Services	Page	13
Responsible Author	Head of Finance	Version	v1
Date last amended	February 2017	Due for review	Feb 2018

Treasury Management Strategy Statement 2017/18

Borrowing in advance will be made within the constraints that:

- It will be limited to no more than 100% of the expected increase in borrowing need (CFR) over the three year planning period; and
- Would not look to borrow more than 18 months in advance of need.

Risks associated with any borrowing in advance activity will be subject to prior appraisal and subsequent reporting through the mid-year or annual reporting mechanism.

3.6 Debt Rescheduling

As short term borrowing rates will be considerably cheaper than longer term fixed interest rates, there may be potential opportunities to generate savings by switching from long term debt to short term debt. However, these savings will need to be considered in the light of the current treasury position and the size of the cost of debt repayment (premiums incurred).

The reasons for any rescheduling to take place will include:

- the generation of cash savings and / or discounted cash flow savings;
- helping to fulfil the treasury strategy;
- enhance the balance of the portfolio (amend the maturity profile and/or the balance of volatility).

Consideration will also be given to identify if there is any residual potential for making savings by running down investment balances to repay debt prematurely as short term rates on investments are likely to be lower than rates paid on current debt.

All rescheduling will be reported to the Cabinet, at the earliest meeting following its action.

3.7 Municipal Bond Agency

It is likely that the Municipal Bond Agency, currently in the process of being set up, will be offering loans to local authorities in the near future. It is also hoped that the borrowing rates will be lower than those offered by the Public Works Loan Board (PWLB). This Authority may consider use of this new source of borrowing as and when appropriate.

4 ANNUAL INVESTMENT STRATEGY

4.1 Investment Policy

The Council's investment policy has regard to the CLG's Guidance on Local Government Investments ("the Guidance") and the 2011 revised CIPFA Treasury Management in Public Services Code of Practice and Cross Sectoral Guidance Notes ("the CIPFA TM Code"). The Council's investment priorities will be security first, liquidity second, then return.

In accordance with the above guidance from the CLG and CIPFA, and in order to minimise the risk to investments, the Council applies minimum acceptable credit criteria in order to generate a list of highly creditworthy counterparties which also enables diversification and thus avoidance of concentration risk. The key ratings used to monitor counterparties are the Short Term and Long Term ratings.

Furthermore, the Council's officers recognise that ratings should not be the sole determinant of the quality of an institution and that it is important to continually assess and monitor the financial sector on both a micro and macro basis and in relation to the economic and political environments in which institutions operate. The assessment will also take account of information that reflects the opinion of the markets. To this end the Council will engage with its advisors to maintain a monitor on market pricing such as "Credit Default Swaps" (CDS) and overlay that information on top of the credit ratings. This is encapsulated within the credit methodology provided by the advisors, Capita Asset Services, in producing its colour codings which show the varying degrees of suggested creditworthiness.

Other information sources used will include the financial press, share price and other such information pertaining to the banking sector in order to establish the most robust scrutiny process on the suitability of potential investment counterparties.

The aim of the strategy is to generate a list of highly creditworthy counterparties which will also enable diversification and thus avoidance of concentration risk.

The intention of the strategy is to provide security of investment and minimisation of risk.

Investment instruments identified for use in the financial year are listed in appendix 5.3 under the 'Specified' and 'Non-Specified' Investments categories. Counterparty limits will be as set through the Council's Treasury Management Practices – Schedules.

4.2 Creditworthiness policy

The primary principle governing the Council's investment criteria is the security of its investments, although the yield or return on the investment is also a key consideration. After this main principle the Council will ensure that:

- **It maintains a policy covering both the categories of investment types it will invest in, criteria for choosing investment counterparties with adequate security, and monitoring their security. This is set out in the Specified and Non-Specified investment sections below; and**
- **It has sufficient liquidity in its investments. For this purpose it will set out procedures for determining the maximum periods for which funds may prudently be committed. These procedures also apply to the Council's prudential indicators covering the maximum principal sums invested.**

Responsible Section/Team	Financial Services	Page	15
Responsible Author	Head of Finance	Version	v1
Date last amended	February 2017	Due for review	Feb 2018

Treasury Management Strategy Statement 2017/18

The Head of Finance will maintain a counterparty list in compliance with the following criteria and will revise the criteria and submit them to Council for approval as necessary. These criteria are separate to that which determines which types of investment instrument are either specified or non-specified as it provides an overall pool of counterparties considered high quality which the Council may use, rather than defining what types of investment instruments are to be used.

Credit rating information is supplied by Capita Asset Services, our treasury consultants, on all active counterparties that comply with the criteria below. Any counterparty failing to meet the criteria would be omitted from the counterparty (dealing) list. Any rating changes, rating watches (notification of a likely change), rating outlooks (notification of a possible longer term change) are provided to officers almost immediately after they occur and this information is considered before dealing. For instance, a negative rating watch applying to a counterparty at the minimum Council criteria will be suspended from use, with all others being reviewed in light of market conditions.

The criteria for providing a pool of high quality investment counterparties (both Specified and Non-specified investments) is:

- Banks 1 - good credit quality – the Council will only use banks which:
 - i. are UK banks; and/or
 - ii. are non-UK and domiciled in a country which has a minimum sovereign long term rating of AAA
and have, as a minimum, the following Fitch, Moody's and Standard and Poors credit ratings (where rated):
 - i. Short term - F1
 - ii. Long term – A
- Banks 2 – Part nationalised UK banks –Royal Bank of Scotland. These banks can be included if they continue to be part nationalised or they meet the ratings in Banks 1 above.
- Banks 3 – The Council's own banker for transactional purposes if the bank falls below the above criteria, although in this case balances will be minimised in both monetary size and time.
- Bank subsidiary and treasury operation -. The Council will use these where the parent bank has provided an appropriate guarantee or has the necessary ratings outlined above.
- Local authorities, parish councils etc
- Money Market Funds – using only those with AAA long-term rating backed up with lowest volatility rating (MR1+)
- Supranational institutions
- 100% owned subsidiaries to a maximum of £400k
- Rossendale Leisure Trust (to a maximum of the Earmarked Reserve + 10%)
- Other related parties (where a charge can be placed on land or equity to preserve the Council's rights to its resources).

Treasury Management Strategy Statement 2017/18

4.3 Other Considerations

Country and sector considerations

Due care will be taken to consider the country, group and sector exposure of the Council's investments. For the foreseeable future this Council will only invest in UK based institutions.

Use of additional information other than credit ratings.

Additional requirements under the Code require the Council to supplement credit rating information. Whilst the above criteria relies primarily on the application of credit ratings to provide a pool of appropriate counterparties for officers to use, additional operational market information will be applied before making any specific investment decision from the agreed pool of counterparties. This additional market information (for example Credit Default Swaps, negative rating watches/outlooks) will be applied to compare the relative security of differing investment counterparties.

Time and monetary limits applying to investments.

All investments will be made for no more than 365 days, i.e short-term.

The proposed criteria for Specified and Non-Specified investments are shown in Appendix 4 for approval.

4.4 Investment Strategy

In-house funds. Investments will be made with reference to the core balance and cash flow requirements and the outlook for short-term interest rates (i.e. rates for investments up to 12 months).

Investment returns expectations.

Bank Rate is forecast to stay flat at 0.25% until quarter 2 2019 and not to rise above 0.75% by quarter 1 2020. Bank Rate forecasts for financial year ends (March) are:

- 2016/17 0.25%
- 2017/18 0.25%
- 2018/19 0.25%
- 2019/20 0.50%

The suggested budgeted investment earnings rates for returns on investments placed for periods up to 100 days during each financial year are as follows:

	Now
2016/17	0.25%
2017/18	0.25%
2018/19	0.25%
2019/20	0.50%
2020/21	0.75%
2021/22	1.00%
2022/23	1.50%
2023/24	1.75%
Later years	2.75%

Responsible Section/Team	Financial Services	Page	17
Responsible Author	Head of Finance	Version	v1
Date last amended	February 2017	Due for review	Feb 2018

Treasury Management Strategy Statement 2017/18

The overall balance of risks to these forecasts is currently probably slightly skewed to the downside in view of the uncertainty over the final terms of Brexit. If growth expectations disappoint and inflationary pressures are minimal, the start of increases in Bank Rate could be pushed back. On the other hand, should the pace of growth quicken and / or forecasts for increases in inflation rise, there could be an upside risk i.e. Bank Rate increases occur earlier and / or at a quicker pace

Investment treasury indicator and limit

Total principal funds invested for greater than 364 days. These limits are set with regard to the Council's liquidity requirements and to reduce the need for early sale of an investment, and are based on the availability of funds after each year-end.

The Council is asked to approve the treasury indicator and limit: -

Maximum principal sums invested > 364 days	2017/18 £m	2018/19 £m	2019/20 £m
Principal sums invested > 364 days	Nil	Nil	Nil

4.5 End of year investment report

At the end of the financial year, the Council will report on its investment activity as part of its Financial Monitoring and Annual Treasury Report.

4.6 External fund managers

The Council does not currently use external fund managers.

APPENDIX 5.2 Economic Background

UK. GDP growth rates in 2013, 2014 and 2015 of 2.2%, 2.9% and 1.8% were some of the strongest rates among the G7 countries. Growth is expected to have strengthened in 2016 with the first three quarters coming in respectively at +0.4%, +0.7% and +0.6%. The latest Bank of England forecast for growth in 2016 as a whole is +2.2%. The figure for quarter 3 was a pleasant surprise which confounded the downbeat forecast by the Bank of England in August of only +0.1%, (subsequently revised up in September, but only to +0.2%). During most of 2015 and the first half of 2016, the economy had faced headwinds for exporters from the appreciation of sterling against the Euro, and weak growth in the EU, China and emerging markets, and from the dampening effect of the Government's continuing austerity programme.

The **referendum vote for Brexit** in June 2016 delivered an immediate shock fall in confidence indicators and business surveys at the beginning of August, which were interpreted by the Bank of England in its August Inflation Report as pointing to an impending sharp slowdown in the economy. However, the following monthly surveys in September showed an equally sharp recovery in confidence and business surveys so that it is generally expected that the economy will post reasonably strong growth numbers through the second half of 2016 and also in 2017, albeit at a slower pace than in the first half of 2016.

The **Monetary Policy Committee, (MPC), meeting of 4th August** was therefore dominated by countering this expected sharp slowdown and resulted in a package of measures that included a cut in Bank Rate from 0.50% to 0.25%, a renewal of quantitative easing, with £70bn made available for purchases of gilts and corporate bonds, and a £100bn tranche of cheap borrowing being made available for banks to use to lend to businesses and individuals.

The **MPC meeting of 3 November** left Bank Rate unchanged at 0.25% and other monetary policy measures also remained unchanged. This was in line with market expectations, but a major change from the previous quarterly Inflation Report MPC meeting of 4 August, which had given a strong steer, in its forward guidance, that it was likely to cut Bank Rate again, probably by the end of the year if economic data turned out as forecast by the Bank. The MPC meeting of 15 December also left Bank Rate and other measures unchanged.

The latest MPC decision included a forward view that **Bank Rate** could go either up or down depending on how economic data evolves in the coming months. Our central view remains that Bank Rate will remain unchanged at 0.25% until the first increase to 0.50% in quarter 2 2019 (unchanged from our previous forecast). However, we would not, as yet, discount the risk of a cut in Bank Rate if economic growth were to take a significant dip downwards, though we think this is unlikely. We would also point out that forecasting as far ahead as mid 2019 is highly fraught as there are many potential economic headwinds which could blow the UK economy one way or the other as well as political developments in the UK, (especially over the terms of Brexit), EU, US and beyond, which could have a major impact on our forecasts.

The pace of Bank Rate increases in our forecasts has been slightly increased beyond the three year time horizon to reflect higher inflation expectations.

The August quarterly Inflation Report was based on a pessimistic forecast of near to zero GDP growth in quarter 3 i.e. a sharp slowdown in growth from +0.7% in quarter 2, in reaction to the shock of the result of the referendum in June. However, **consumers** have very much stayed in a 'business as usual' mode and there has been no sharp downturn in spending; it is consumer expenditure that underpins the services sector which comprises about 75% of UK GDP. After a fairly flat three months leading up to October, retail sales in quarter 4 grew reasonably strongly, increasing by 1.2% and added 0.1% to GDP growth. In addition, the GfK consumer confidence

Responsible Section/Team	Financial Services	Page	21
Responsible Author	Head of Finance	Version	v3
Date last amended	February 2017	Due for review	Feb 2018

Treasury Management Strategy Statement 2017/18

index recovered quite strongly to -3 in October after an initial sharp plunge in July to -12 in reaction to the referendum result. However, by December it had fallen back to -7 indicating a return to pessimism about future prospects among consumers, probably based mainly around concerns about rising inflation eroding purchasing power.

Bank of England GDP forecasts in the November quarterly Inflation Report were as follows, (August forecasts in brackets) - 2016 +2.2%, (+2.0%); 2017 1.4%, (+0.8%); 2018 +1.5%, (+1.8%). There has, therefore, been a sharp increase in the forecast for 2017, a marginal increase in 2016 and a small decline in growth, now being delayed until 2018, as a result of the impact of Brexit.

Capital Economics' GDP forecasts are as follows: 2016 +2.0%; 2017 +1.5%; 2018 +2.5%. They feel that pessimism is still being overdone by the Bank and Brexit will not have as big an effect as initially feared by some commentators.

The Chancellor has said he will do 'whatever is needed' i.e. to **promote growth**; there are two main options he can follow – fiscal policy e.g. cut taxes, increase investment allowances for businesses, and/or increase government expenditure on infrastructure, housing etc. This will mean that the PSBR deficit elimination timetable will need to slip further into the future as promoting growth, (and ultimately boosting tax revenues in the longer term), will be a more urgent priority. The Governor of the Bank of England, Mark Carney, had warned that a vote for Brexit would be likely to cause a slowing in growth, particularly from a reduction in business investment, due to the uncertainty of whether the UK would have continuing full access, (i.e. without tariffs), to the EU single market. He also warned that the Bank could not do all the heavy lifting to boost economic growth and suggested that the Government would need to help growth e.g. by increasing investment expenditure and by using fiscal policy tools. The newly appointed Chancellor, Phillip Hammond, announced, in the aftermath of the referendum result and the formation of a new Conservative cabinet, that the target of achieving a budget surplus in 2020 would be eased in the Autumn Statement on 23 November. This was duly confirmed in the Statement which also included some increases in infrastructure spending.

The other key factor in forecasts for Bank Rate is **inflation** where the MPC aims for a target for CPI of 2.0%. The November Inflation Report included an increase in the peak forecast for inflation from 2.3% to 2.7% during 2017; (Capital Economics are forecasting a peak of just under 3% in 2018). This increase was largely due to the effect of the sharp fall in the value of sterling since the referendum, although during November, sterling has recovered some of this fall to end up 15% down against the dollar, and 8% down against the euro (as at the MPC meeting date – 15.12.16). This depreciation will feed through into a sharp increase in the cost of imports and materials used in production in the UK. However, the MPC is expected to look through the acceleration in inflation caused by external, (outside of the UK), influences, although it has given a clear warning that if wage inflation were to rise significantly as a result of these cost pressures on consumers, then they would take action to raise Bank Rate.

What is clear is that **consumer disposable income** will come under pressure, as the latest employers' survey is forecasting median pay rises for the year ahead of only 1.1% at a time when inflation will be rising significantly higher than this. The CPI figure has been on an upward trend in 2016 and reached 1.6% in December. However, prices paid by factories for inputs are rising very strongly although producer output prices are still lagging well behind.

Gilt yields, and consequently PWLB rates, have risen sharply since hitting a low point in mid-August. There has also been huge volatility during 2016 as a whole. The year started with 10 year gilt yields at 1.88%, fell to a low point of 0.53% on 12 August, and hit a new peak on the way up again of 1.55% on 15 November. The rebound since August reflects the initial

Responsible Section/Team	Financial Services	Page	22
Responsible Author	Head of Finance	Version	v3
Date last amended	February 2017	Due for review	Feb 2018

Treasury Management Strategy Statement 2017/18

combination of the yield-depressing effect of the MPC's new round of quantitative easing on 4 August, together with expectations of a sharp downturn in expectations for growth and inflation as per the pessimistic Bank of England Inflation Report forecast, followed by a sharp rise in growth expectations since August when subsequent business surveys, and GDP growth in quarter 3 at +0.5% q/q, confounded the pessimism. Inflation expectations also rose sharply as a result of the continuing fall in the value of sterling.

Employment had been growing steadily during 2016 but encountered a first fall in over a year, of 6,000, over the three months to October. The latest employment data in December, (for November), was distinctly weak with an increase in unemployment benefits claimants of 2,400 in November and of 13,300 in October. **House prices** have been rising during 2016 at a modest pace but the pace of increase has slowed since the referendum; a downturn in prices could dampen consumer confidence and expenditure.

USA. The American economy had a patchy 2015 with sharp swings in the quarterly **growth rate** leaving the overall growth for the year at 2.4%. Quarter 1 of 2016 at +0.8%, (on an annualised basis), and quarter 2 at 1.4% left average growth for the first half at a weak 1.1%. However, quarter 3 at 3.5% signalled a rebound to strong growth. The Fed. embarked on its long anticipated first increase in rates at its December 2015 meeting. At that point, confidence was high that there would then be four more increases to come in 2016. Since then, more downbeat news on the international scene, and then the Brexit vote, have caused a delay in the timing of the second increase of 0.25% which came, as expected, in December 2016 to a range of 0.50% to 0.75%. Overall, despite some data setbacks, the US is still, probably, the best positioned of the major world economies to make solid progress towards a combination of strong growth, full employment and rising inflation: this is going to require the central bank to take action to raise rates so as to make progress towards normalisation of monetary policy, albeit at lower central rates than prevailed before the 2008 crisis. The Fed. therefore also indicated that it expected three further increases of 0.25% in 2017 to deal with rising inflationary pressures.

The result of the **presidential election** in November is expected to lead to a strengthening of US growth if Trump's election promise of a major increase in expenditure on infrastructure is implemented. This policy is also likely to strengthen inflation pressures as the economy is already working at near full capacity. In addition, the unemployment rate is at a low point verging on what is normally classified as being full employment. However, the US does have a substantial amount of hidden unemployment in terms of an unusually large, (for a developed economy), percentage of the working population not actively seeking employment.

Trump's election has had a profound effect on the **bond market and bond yields** rose sharply in the week after his election. Time will tell if this is a reasonable assessment of his election promises to cut taxes at the same time as boosting expenditure. This could lead to a sharp rise in total debt issuance from the current level of around 72% of GDP towards 100% during his term in office. However, although the Republicans now have a monopoly of power for the first time since the 1920s, in having a President and a majority in both Congress and the Senate, there is by no means any certainty that the politicians and advisers he has been appointing to his team, and both houses, will implement the more extreme policies that Trump outlined during his election campaign. Indeed, Trump may even rein back on some of those policies himself.

In the first week since the US election, there was a major shift in **investor sentiment** away from bonds to equities, especially in the US. However, gilt yields in the UK and bond yields in the EU have also been dragged higher. Some commentators are saying that this rise has been an overreaction to the US election result which could be reversed. Other commentators take

Responsible Section/Team	Financial Services	Page	23
Responsible Author	Head of Finance	Version	v3

Treasury Management Strategy Statement 2017/18

the view that this could well be the start of the long expected eventual unwinding of bond prices propelled upwards to unrealistically high levels, (and conversely bond yields pushed down), by the artificial and temporary power of quantitative easing.

EZ. In the Eurozone, **the ECB** commenced, in March 2015, its massive €1.1 trillion programme of quantitative easing to buy high credit quality government and other debt of selected EZ countries at a rate of €60bn per month. This was intended to run initially to September 2016 but was extended to March 2017 at its December 2015 meeting. At its December and March 2016 meetings it progressively cut its deposit facility rate to reach -0.4% and its main refinancing rate from 0.05% to zero. At its March meeting, it also increased its monthly asset purchases to €80bn. These measures have struggled to make a significant impact in boosting economic growth and in helping inflation to rise significantly from low levels towards the target of 2%. Consequently, at its December meeting it extended its asset purchases programme by continuing purchases at the current monthly pace of €80 billion until the end of March 2017, but then continuing at a pace of €60 billion until the end of December 2017, or beyond, if necessary, and in any case until the Governing Council sees a sustained adjustment in the path of inflation consistent with its inflation aim. It also stated that if, in the meantime, the outlook were to become less favourable or if financial conditions became inconsistent with further progress towards a sustained adjustment of the path of inflation, the Governing Council intended to increase the programme in terms of size and/or duration.

EZ GDP growth in the first three quarters of 2016 has been 0.5%, +0.3% and +0.3%, (+1.7% y/y). Forward indications are that economic growth in the EU is likely to continue at moderate levels. This has added to comments from many forecasters that those central banks in countries around the world which are currently struggling to combat low growth, are running out of ammunition to stimulate growth and to boost inflation. Central banks have also been stressing that national governments will need to do more by way of structural reforms, fiscal measures and direct investment expenditure to support demand and economic growth in their economies.

There are also significant specific political and other risks within the EZ: -

- **Greece** continues to cause major stress in the EU due to its tardiness and reluctance in implementing key reforms required by the EU to make the country more efficient and to make significant progress towards the country being able to pay its way – and before the EU is prepared to agree to release further bail out funds.
- **Spain** has had two inconclusive general elections in 2015 and 2016, both of which failed to produce a workable government with a majority of the 350 seats. At the eleventh hour on 31 October, before it would have become compulsory to call a third general election, the party with the biggest bloc of seats (137), was given a majority confidence vote to form a government. This is potentially a highly unstable situation, particularly given the need to deal with an EU demand for implementation of a package of austerity cuts which will be highly unpopular.
- The under capitalisation of **Italian banks** poses a major risk. Some **German banks** are also undercapitalised, especially Deutsche Bank, which is under threat of major financial penalties from regulatory authorities that will further weaken its capitalisation. What is clear is that national governments are forbidden by EU rules from providing state aid to bail out those banks that are at risk, while, at the same time, those banks are unable realistically to borrow additional capital in financial markets due to their vulnerable financial state. However, they are also 'too big, and too important to their national economies, to be allowed to fail'.
- **4th December Italian constitutional referendum** on reforming the Senate and reducing its powers; this was also a confidence vote on Prime Minister Renzi who has resigned on losing the referendum. However, there has been remarkably little fall out

Responsible Section/Team	Financial Services	Page	24
Responsible Author	Head of Finance	Version	v3
Date last amended	February 2017	Due for review	Feb 2018

Treasury Management Strategy Statement 2017/18

from this result which probably indicates that the financial markets had already fully priced it in. A rejection of these proposals is likely to inhibit significant progress in the near future to fundamental political and economic reform which is urgently needed to deal with Italy's core problems, especially low growth and a very high debt to GDP ratio of 135%. These reforms were also intended to give Italy more stable government as no western European country has had such a multiplicity of governments since the Second World War as Italy, due to the equal split of power between the two chambers of the Parliament which are both voted in by the Italian electorate but by using different voting systems. It is currently unclear what the political, and other, repercussions are from this result.

- **Dutch general election 15.3.17**; a far right party is currently polling neck and neck with the incumbent ruling party. In addition, anti-big business and anti-EU activists have already collected two thirds of the 300,000 signatures required to force a referendum to be taken on approving the EU – Canada free trade pact. This could delay the pact until a referendum in 2018 which would require unanimous approval by all EU governments before it can be finalised. In April 2016, Dutch voters rejected by 61.1% an EU – Ukraine cooperation pact under the same referendum law. Dutch activists are concerned by the lack of democracy in the institutions of the EU.
- **French presidential election**; first round 13 April; second round 7 May 2017.
- **French National Assembly election June 2017**.
- **German Federal election August – 22 October 2017**. This could be affected by significant shifts in voter intentions as a result of terrorist attacks, dealing with a huge influx of immigrants and a rise in anti EU sentiment.
- The core EU, (note, not just the Eurozone currency area), principle of **free movement of people** within the EU is a growing issue leading to major stress and tension between EU states, especially with the Visegrad bloc of former communist states.

Given the number and type of challenges the EU faces in the next eighteen months, there is an identifiable risk for the EU project to be called into fundamental question. The risk of an electoral revolt against the EU establishment has gained traction after the shock results of the UK referendum and the US Presidential election. But it remains to be seen whether any shift in sentiment will gain sufficient traction to produce any further shocks within the EU.

Asia. Economic growth in **China** has been slowing down and this, in turn, has been denting economic growth in emerging market countries dependent on exporting raw materials to China. Medium term risks have been increasing in China e.g. a dangerous build up in the level of credit compared to the size of GDP, plus there is a need to address a major over supply of housing and surplus industrial capacity, which both need to be eliminated. This needs to be combined with a rebalancing of the economy from investment expenditure to consumer spending. However, the central bank has a track record of supporting growth through various monetary policy measures, though these further stimulate the growth of credit risks and so increase the existing major imbalances within the economy.

Economic growth in **Japan** is still patchy, at best, and skirting with deflation, despite successive rounds of huge monetary stimulus and massive fiscal action to promote consumer spending. The government is also making little progress on fundamental reforms of the economy.

Emerging countries. There have been major concerns around the vulnerability of some emerging countries exposed to the downturn in demand for commodities from China or to competition from the increase in supply of American shale oil and gas reaching world markets. The ending of sanctions on Iran has also brought a further significant increase in oil supplies into the world markets. While these concerns have subsided during 2016, if interest rates in the USA do rise substantially over the next few years, (and this could also be accompanied by

Responsible Section/Team	Financial Services	Page	25
Responsible Author	Head of Finance	Version	v3
Date last amended	February 2017	Due for review	Feb 2018

Treasury Management Strategy Statement 2017/18

a rise in the value of the dollar in exchange markets), this could cause significant problems for those emerging countries with large amounts of debt denominated in dollars. The Bank of International Settlements has recently released a report that \$340bn of emerging market corporate debt will fall due for repayment in the final two months of 2016 and in 2017 – a 40% increase on the figure for the last three years.

Financial markets could also be vulnerable to risks from those emerging countries with major sovereign wealth funds, that are highly exposed to the falls in commodity prices from the levels prevailing before 2015, especially oil, and which, therefore, may have to liquidate substantial amounts of investments in order to cover national budget deficits over the next few years if the price of oil does not return to pre-2015 levels.

Brexit timetable and process

- March 2017: UK government notifies the European Council of its intention to leave under the Treaty on European Union Article 50
- March 2019: two-year negotiation period on the terms of exit. This period can be extended with the agreement of all members i.e. not that likely.
- UK continues as an EU member during this two-year period with access to the single market and tariff free trade between the EU and UK.
- The UK and EU would attempt to negotiate, among other agreements, a bi-lateral trade agreement over that period.
- The UK would aim for a negotiated agreed withdrawal from the EU, although the UK may also exit without any such agreements.
- If the UK exits without an agreed deal with the EU, World Trade Organisation rules and tariffs could apply to trade between the UK and EU - but this is not certain.
- On exit from the EU: the UK parliament would repeal the 1972 European Communities Act.
- The UK will then no longer participate in matters reserved for EU members, such as changes to the EU's budget, voting allocations and policies.
- It is possible that some sort of agreement could be reached for a transitional time period for actually implementing Brexit after March 2019 so as to help exporters to adjust in both the EU and in the UK.

Appendix 5.3 Treasury Management Practice (TMP1) – Credit and Counterparty Risk Management

The CLG issued Investment Guidance in 2010, and this forms the structure of the Council's policy below. These guidelines do not apply to either trust funds or pension funds which operate under a different regulatory regime.

The key intention of the Guidance is to maintain the current requirement for councils to invest prudently, and that priority is given to security and liquidity before yield. In order to facilitate this objective the guidance requires this Council to have regard to the CIPFA publication Treasury Management in the Public Services: Code of Practice and Cross-Sectoral Guidance Notes. This Council adopted the Code on 24th February 2010 and will apply its principles to all investment activity. In accordance with the Code, the Head of Financial Services has produced its Treasury Management Practices (TMPs). This part, TMP 1, covering investment counterparty policy requires approval each year.

Annual Investment Strategy

The key requirements of both the Code and the investment guidance are to set an annual investment strategy, as part of its annual treasury strategy for the following year, covering the identification and approval of following:

- The strategy guidelines for choosing and placing investments, particularly non-specified investments.
- The principles to be used to determine the maximum periods for which funds can be committed.
- Specified investments that the Council will use. These are high security (i.e. high credit rating, although this is defined by the Council, and no guidelines are given), and high liquidity investments in sterling and with a maturity of no more than a year.
- Non-specified investments, clarifying the greater risk implications, identifying the general types of investment that may be used and a limit to the overall amount of various categories that can be held at any time.

The investment policy proposed for the Council is:

Strategy Guidelines

The main strategy guidelines are contained in the body of the treasury strategy statement.

Specified Investments

These investments are sterling investments of not more than one-year maturity, or those which could be for a longer period but where the Council has the right to be repaid within 12 months if it wishes. These are considered low risk assets where the possibility of loss of principal or investment income is small. These would include sterling investments which would not be defined as capital expenditure with:

1. The UK Government (such as the Debt Management Account deposit facility, UK Treasury Bills or a Gilt with less than one year to maturity).
2. Supranational bonds of less than one year's duration.
3. A local authority, parish council or community council.
4. Pooled investment vehicles (such as money market funds) that have been awarded a high credit rating by a credit rating agency. For category 4 this covers pooled investment vehicles, such as money market funds, rated A by Standard and Poor's, Moody's or Fitch rating agencies.

Responsible Section/Team	Financial Services	Page	27
Responsible Author	Head of Finance	Version	v3
Date last amended	February 2017	Due for review	Feb 2018

Treasury Management Strategy Statement 2017/18

5. A body that is considered of a high credit quality, such as a bank or building society. For category 5 this covers bodies with a minimum short term rating of A (or the equivalent) as rated by Standard and Poor's, Moody's or Fitch rating agencies.

Within these bodies, and in accordance with the Code, the Council has set additional criteria to set the time and amount of monies which will be invested in these bodies. This criteria is 12 months and £5m.

Non Specified Investments

In response to falling bank interest rates and the challenges of the MTFs, the Head of Finance will explore alternative investment opportunities in order to save ongoing revenue costs or earn additional revenue incomes/interest. The counterparties in these cases will generally be related parties (as defined in the Accounting Code of Practice applicable to the year in which the investment decision was made), such as Rossendale Leisure Trust, Rossendale Transport Ltd and the Lancashire county Pension Fund.

In any case, a full business case for the investment, setting out the advantages, risks and rewards and assets securities, will be presented to Cabinet for consideration and subsequently to full Council for a decision.

The monitoring of investment counterparties - The credit rating of counterparties will be monitored regularly. The Council receives credit rating information (changes, rating watches and rating outlooks) from Capita as and when ratings change, and counterparties are checked promptly. On occasion ratings may be downgraded when an investment has already been made. The criteria used are such that a minor downgrading should not affect the full receipt of the principal and interest. Any counterparty failing to meet the criteria will be removed from the list immediately by the Head of Financial Services, and if required new counterparties which meet the criteria will be added to the list.

APPENDIX 5.5 Treasury management scheme of delegation

(i) Full Council

- receiving and reviewing reports on treasury management policies, practices and activities;
- approval of annual strategy.
- approval of individual non-specified investment decisions during the financial year

(ii) Cabinet

- approval of/amendments to the organisation's adopted clauses, treasury management policy statement and treasury management practices;
- budget consideration and approval;
- approval of the division of responsibilities;
- receiving and reviewing regular monitoring reports and acting on recommendations;
- approving the selection of external service providers and agreeing terms of appointment.
- reviewing the treasury management policy and procedures and making recommendations to the responsible body.
- consideration and recommendation of individual non-specified investment decisions during the financial year

APPENDIX 5.6 The treasury management role of the Section 151 officer and other officers

The S151 (responsible) officer

- recommending clauses, treasury management policy/practices for approval, reviewing the same regularly, and monitoring compliance;
- submitting regular treasury management policy reports;
- submitting budgets and budget variations;
- receiving and reviewing management information reports;
- reviewing the performance of the treasury management function;
- ensuring the adequacy of treasury management resources and skills, and the effective division of responsibilities within the treasury management function;
- ensuring the adequacy of internal audit, and liaising with external audit;
- recommending the appointment of external service providers.

The Deputy S151 officer (being the Finance Manager)

In the absence of the S151 officer, the Deputy S151 officer will take over the responsibilities noted above.

The Finance Officer (Exchequer Services)

- Transfer of Funds between the Council's approved call accounts.
- Transfer of funds to the Council's approved investors for a period no greater than 7 days.

Authorised Signatories

The following posts have been designated as those authorised to act as bank signatories for the Council.

- Head of Finance
- Finance Manager
- **Finance Officer (Exchequer Services)** Senior Accountant Accountants Technician

Responsible Section/Team	Financial Services	Page	31

APPENDIX 5.7 Glossary

Authorised Limit for External Debt

The Authorised Limit, like all other prudential indicators, has to be set and revised by elected members. It should not be set so high that it would never in any possible circumstances be breached but rather reflect a level of borrowing which while not desired, could be afforded but may not be sustainable

bp – basis points (in relation to, inter alia, bank base rates)

Capital Expenditure

Expenditure on the acquisition of a fixed asset or expenditure which adds to and not merely maintains the value of an existing fixed asset.

Capital Financing Requirement

This important component of an authority's capital strategy is the amount of capital spending that has not been financed by capital receipts, capital grants, and contributions from revenue. It is a measure of the underlying need to borrow for capital purposes.

CIPFA – Chartered Institute of Public Finance and Accountancy.

CPI – Consumer Price Index

Debt Rescheduling

Similar to re-mortgaging a house, in so far as, loans are repaid before maturity, and replaced with new loans, usually at a more advantageous rate of interest.

DCLG - Department of Communities and Local Government.

ECB – European Central Bank

GDP – Gross Domestic Product

IMF – International Monetary Fund

LIBOR – London Inter Bank Offer Rate

Liquidity

Access to cash deposits at very short notice.

Long term Investments

Investments with a duration of more than one year.

Market Loans

Loans borrowed from financial institutions such as banks and building societies.

Maturity

The date at which loans are due for repayment.

Net Borrowing Requirement

The Council's borrowings less cash and short term investments.

Responsible Section/Team	Financial Services	Page	32
Responsible Author	Head of Finance	Version	v3
Date last amended	February 2017	Due for review	Feb 2018

Treasury Management Strategy Statement 2017/18

Operational Boundary for External Debt

This indicator is, as its name suggest, the focus of day to day treasury management activity within the authority. It is a means by which the authority manages its external debt to ensure that it remains within the self imposed 'Authorised Limit'. However it differs from the 'Authorised Limit' in being based on expectations of the maximum external debt of the authority according to probable- not simply possible-events and being consistent with the maximum level of external debt projected by the estimates.

Prudential Borrowing

This is borrowing wholly supported by the Council and would include 'invest to save projects'. Market conditions permitting it may well be cheaper to borrow rather than lease vehicles and or plant.

Public Works Loan Board

A Government agency that provides longer term loans to local authorities.

Ratio of Financing costs to Net Revenue Stream

This is the proportion of interest payments plus debt repaid less interest receipts expressed as a proportion of the revenue stream. In the case of General Fund the revenue stream equates to the budget requirement of £11.9m (funded by Rate Support Grant, Business Rates and Council Tax).

Repurchase Rate (Repo)

This is equivalent to the Bank of England base rate.

Short-term investment

Investments with a duration of less than or equal to 365 days.

Supported Borrowing

This is borrowing that is supported by the government through the revenue support grant and housing subsidy grant.

Term Deposit

Investments for a pre-defined period of time at a fixed interest rate.

Upper Limit for fixed/variable interest rate exposure

This relates to the limit in loans which can be held in either fixed interest rates or variable interest rates. Whilst fixed interest-rate borrowing can contribute significantly to reducing the uncertainty surrounding future interest rate scenarios, the pursuit of optimum performance may justify, or even demand, retaining a degree of flexibility through the use of variable interest rates.

Volatility

Sudden upward or downward movements in interest rates in reaction to economic, market and political events.

The Treasury Management Policy Statement

The treasury management policy statement

This council defines its treasury management activities as:

1. The management of the organisation's investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks.
2. This organisation regards the successful identification, monitoring and control of risk to be the prime criteria by which the effectiveness of its treasury management activities will be measured. Accordingly, the analysis and reporting of treasury management activities will focus on their risk implications for the organisation, and any financial instruments entered into to manage these risks.
3. This council acknowledges that effective treasury management will provide support towards the achievement of its business and service objectives. It is therefore committed to the principles of achieving value for money in treasury management, and to employing suitable comprehensive performance measurement techniques, within the context of effective risk management.

Clauses to be formally adopted

1. This Council will create and maintain, as the cornerstones for effective treasury management:
 - a Treasury Management Policy Statement (TMSS), stating the policies, objectives and approach to risk management of its treasury management activities
 - suitable Treasury Management Practices (TMPs), setting out the manner in which the organisation will seek to achieve those policies and objectives, and prescribing how it will manage and control those activities

The content of the policy statement and TMPs will follow the recommendations contained in Sections 6 and 7 of the CIPFA Treasury Management Code (the Code), subject only to amendment where necessary to reflect the particular circumstances of this organisation. Such amendments will not result in the organisation materially deviating from the Code's key principles.
2. This Council will receive reports on its treasury management policies, practices and activities, including, as a minimum, an annual strategy and plan in advance of the year, a mid-year review and an annual report after its close, in the form prescribed in its TMPs.
3. This Council delegates responsibility for the implementation and regular monitoring of its treasury management policies and practices to Head of Finance, and for the execution and administration of treasury management decisions to the Head of Finance, who will act in accordance with the organisation's policy statement and TMPs
4. This organisation nominates Head of Finance to be responsible for ensuring effective scrutiny of the treasury management strategy and policies.

Responsible Section/Team	Finance	Version/Status	2017/18 v1

Date last Amended	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	3

TMP 1 RISK MANAGEMENT

The responsible officer (in the case of Rossendale Borough Council, The Head of Finance) will design, implement and monitor all arrangements for the identification, management and control of treasury management risk, will report at least annually on the adequacy/suitability thereof, and will report, as a matter of urgency, the circumstances of any actual or likely difficulty in achieving the organisation's objectives in this respect, all in accordance with the procedures set out in TMP6 Reporting requirements and management information arrangements. In respect of each of the following risks, the arrangements which seek to ensure compliance with these objectives are set out in the schedule to this document.

1. Credit and Counterparty Risk Management

Credit and counter-party risk is the risk of failure by a counterparty to meet its contractual obligations to the organisation under an investment, borrowing, capital project or partnership financing, particularly as a result of the counterparty's diminished creditworthiness, and the resulting detrimental effect on the organisation's capital or current (revenue) resources.

This organisation regards a key objective of its treasury management activities to be the security of the principal sums it invests. Accordingly, it will ensure that its counterparty lists and limits reflect a prudent attitude towards organisations with whom funds may be deposited, and will limit its investment activities to the instruments, methods and techniques referred to in TMP4 Approved Instruments Methods And Techniques and listed in the schedule to this document. It also recognises the need to have, and will therefore maintain, a formal counterparty policy in respect of those organisations from which it may borrow, or with whom it may enter into other financing arrangements.

1.1. Policy on the use of credit risk analysis techniques

- 1.1.1. The Council will use credit criteria in order to select creditworthy counterparties for placing investments with.
- 1.1.2. Credit ratings will be used as supplied from all three rating agencies - Fitch, Moodys and Standard & Poors
- 1.1.3. Treasury Management Consultants will provide regular updates of changes to all ratings relevant to the council.
- 1.1.4. The responsible officer will formulate suitable criteria for assessing and monitoring the credit risk of investment counterparties and shall construct a lending list comprising maturity periods, type, group, sector, country and counterparty limits. This organisation will use the Sector creditworthiness service based on using colours determined by minimum combinations of ratings to derive maturity limits as follows: -
 - Yellow 5 years
 - Purple 2 years
 - Blue 1 year (only applies to nationalised or semi nationalised UK Banks)
 - Orange 1 year
 - Red 6 months
 - Green 3 months
 - No Colour not to be used

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	4

In addition, a credit default swap overlay is used as a further safeguard to give early warning of potential creditworthiness problems which may only belatedly lead to actual changes in credit ratings.

As this methodology is complex, readers are referred to the document produced by Sector “Guide to Establishing Credit Policies December 2011” for a full explanation.

- 1.1.5. Credit ratings for individual counterparties can change at any time. The Head of Finance is responsible for applying approved credit rating criteria for selecting approved counterparties. Treasury management staff will add or delete counterparties to/from the approved counterparty list in line with the policy on criteria for selection of counterparties.
- 1.1.6. This organisation will not rely solely on credit ratings in order to select and monitor the creditworthiness of counterparties. In addition to credit ratings it will therefore use other sources of information including: -
 - The quality financial press
 - Market data
 - Information on government support for banks and
 - The credit ratings of that government support
- 1.1.7. Maximum maturity periods and amounts to be placed in different types of investment instrument are shown below. At present the maximum investment period for Specified Investments (ie. those other than loans to related parties) is 364 days.
- 1.1.8. Diversification: this organisation will avoid concentrations of lending and borrowing by adopting a policy of diversification. It will therefore use the following: -
 - Maximum amount to be placed with any one institution - £5m or 50%, whichever is greater at the time the decision is made.
 - Group limits where a number of institutions are under one ownership – maximum of £10m
 - Country limits – normally, a minimum sovereign rating of AAA is required for an institution to be placed on our approved lending list. However, UK banks will be considered regardless of the UK’s sovereign rating at the time of investment.
- 1.1.9. Investments will not be made with counterparties that do not have a credit rating in their own right, other than in the case of Non-specified Investments where the counterparty is one of the Council’s related parties and where a charge can be placed on land or equity in order to preserve the Council’s rights to its resources.
- 1.1.10. The definition of ‘high credit quality’ in order to determine what are specified investments as opposed to non specified investments which do not have high credit ratings is set out at the end of TMP1 in schedule 1.
- 1.1.11. Should the Council ever begin to use **external fund manager(s)** they will adhere to the counterparty credit criteria and maximum individual limits set by the Council; however it is understood that fund manager(s) may use a subset of the counterparty list so derived.

1.2 Liquidity Risk Management

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	5

This is the risk that cash will not be available when it is needed, that ineffective management of liquidity creates additional unbudgeted costs, and that the organisation's business/service objectives will be thereby compromised.

This organisation will ensure it has adequate though not excessive cash resources, borrowing arrangements, overdraft or standby facilities to enable it at all times to have the level of funds available to it which are necessary for the achievement of its business/service objectives. This organisation will only borrow in advance of need where there is a clear business case for doing so and will only do so for the current capital programme or to finance future debt maturities.

1.2.1. Amounts of approved minimum cash balances and short-term investments

The Finance Officers shall seek to minimise the balance held in the Council's main bank accounts at the close of each working day. The use of alternative call accounts and short-term notice accounts (under 90 days) shall be used in order to achieve this aim .

1.2.2. Details of:

a. Standby facilities

At the end of each financial day the balance in the Council's current account is automatically transferred to/from the Special Business Investment Account (SIBA) to maximise the interest available on the Council's operational bank accounts. In practice the current account and the SIBA account are now operated as one account. Individual daily debit balances on the current account are not treated as an overdraft.

The Council also maintain one or more on-call, and notice accounts up to 90 days with other banks. These accounts are used for reserve cash balances which may be required without notice. Such instant access is possible, but would lead to some loss of interest commensurate with the notice period waived.

b. Bank overdraft arrangements

Previous overdraft facilities have now ceased due to the sweeping action described above and following the bank imposing an arrangement fee for overdrafts on the SIBA account.

c. Short-term borrowing facilities

The Council accesses temporary loans through approved brokers on the London money market. The approved borrowing limit for short term debt in 2017/18 is £4.5m.

d. Insurance/guarantee facilities

There are no specific insurance or guarantee facilities as the above arrangements are regarded as being adequate to cover all unforeseen occurrences.

1.3 Interest Rate Risk Management

The risk that fluctuations in the levels of interest rates create an unexpected or unbudgeted burden on the organisation's finances, against which the organisation has failed to protect itself adequately.

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	6

This organisation will manage its exposure to fluctuations in interest rates with a view to containing its interest costs, or securing its interest revenues, in accordance with the amounts provided in its budgetary arrangements as amended in accordance with TMP6 Reporting requirements and management information arrangements.

It will achieve this by the prudent use of its approved financing and investment instruments, methods and techniques, primarily to create stability and certainty of costs and revenues, but at the same time retaining a sufficient degree of flexibility to take advantage of unexpected, potentially advantageous changes in the level or structure of interest rates. This should be the subject to the consideration and, if required, approval of any policy or budgetary implications.

1.3.1 Policies concerning the use of instruments for interest rate management.

- a. forward dealing
Consideration will be given to dealing from forward periods dependant upon market conditions.
- b. callable deposits (England and Wales only)
The Council may use callable deposits as part as of its Annual Investment Strategy (AIS), which now forms part of the Annual Treasury Management Strategy Statement. The credit criteria and maximum periods are set out in the Schedule of Specified and Non Specified Investments appended to the AIS.
- c. LOBOS (borrowing under lender's option/borrower's option)
Use of LOBOs are considered as part of the annual borrowing strategy. All borrowing for periods in excess of 364 days must be approved by Head of Finance.

1.4 Exchange Rate Risk Management

The risk that fluctuations in foreign exchange rates create an unexpected or unbudgeted burden on the organisation's finances, against which the organisation has failed to protect itself adequately.

The Council will manage its exposure to fluctuations in exchange rates so as to minimise any detrimental impact on its budgeted income/expenditure levels.

1.5 Refinancing Risk Management

The risk that maturing borrowings, capital projects or partnership financings cannot be refinanced on terms that reflect the provisions made by the organisation for those refinancing, both capital and current (revenue), and/or that the terms are inconsistent with prevailing market conditions at the time.

This organisation will ensure that its borrowing, private financing and partnership arrangements are negotiated, structured and documented, and the maturity profile of the monies so raised are managed, with a view to obtaining offer terms for renewal or refinancing, if required, which are competitive and as favourable to the organisation as can reasonably be achieved in the light of market conditions prevailing at the time.

The Council will actively manage its relationships with its counterparties in these transactions in such a manner as to secure this objective, and will avoid overreliance on any one source of funding if this might jeopardise achievement of the above.

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	7

1.5.1. Debt/Other Capital Financing, Maturity Profiling, Policies and Practices

The Council will establish through its Prudential and Treasury Indicators the amount of debt maturing in any year/period.

Any debt rescheduling will be considered when the difference between the refinancing rate and the redemption rate is most advantageous and the situation will be continually monitored in order to take advantage of any perceived anomalies in the yield curve. The reasons for any rescheduling to take place will include:

- a) the generation of cash savings at minimum risk;
- b) to reduce the average interest rate;
- c) to amend the maturity profile and /or the balance of volatility of the debt portfolio.

Rescheduling will be reported to the Cabinet at the meeting immediately following its action.

1.5.2. Projected Capital Investment Requirements

The Finance Manager will prepare a three year plan for capital expenditure for the Council. The capital plan will be used to prepare a three year revenue budget for all forms of financing charges.

The definition of capital expenditure and long term liabilities used in the Code will follow recommended accounting practice as per the Code of Practice on Local Authority Accounting.

1.5.3 Policy Concerning Limits on Affordability and Revenue Consequences of Capital Financing

In considering the affordability of its capital plans, the Council will consider all the resources currently available/estimated for the future together with the totality of its capital plans, revenue income and revenue expenditure forecasts for the forthcoming year and the two following years and the impact these will have on council tax. It will also take into account affordability in the longer term beyond this three year period.

The Council will use the definitions provided in the Prudential Code for borrowing (65), capital expenditure (66), capital financing requirement (67), debt (68), financing costs (69), investments (70), net borrowing (71), net revenue stream (72), other long term liabilities (73).

1.6 Legal and Regulatory Risk Management

The risk that the organisation itself, or an organisation with which it is dealing in its treasury management activities, fails to act in accordance with its legal powers or regulatory requirements, and that the organisation suffers losses accordingly.

This organisation will ensure that all of its treasury management activities comply with its statutory powers and regulatory requirements. It will demonstrate such compliance, if required to do so, to all parties with whom it deals in such activities. In framing its credit and counterparty policy under TMP1[1] credit and counterparty risk management, it will ensure that there is evidence of counterparties' powers, authority and compliance in respect of the transactions they may affect with the organisation, particularly with regard to duty of care and fees charged.

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	8

This organisation recognises that future legislative or regulatory changes may impact on its treasury management activities and, so far as it is reasonably able to do so, will seek to minimise the risk of these impacting adversely on the organisation.

1.6.1.References to Relevant Statutes and Regulations

The treasury management activities of the Council shall comply fully with legal statute, guidance, Codes of Practice and the regulations of the Council. These are:

- Local Government Act 2003
- S.I. 2003 No.2938 Local Government Act 2003 (Commencement No.1 and Transitional Provisions and Savings) Order 2003 13.11.03
- S.I. 2003 No.3146 Local Authorities (Capital Finance and Accounting) (England) Regulations 2003 and associated commentary 10.12.03
- S.I. 2004 No.533 Local Authorities (Capital Finance) (Consequential, Transitional and Savings Provisions) Order 2004 8.3.04
- S.I. 2004 No.534 Local Authorities (Capital Finance and Accounting) (Amendment) (England) Regulations 2004 8.3.04
- Guidance on Investments ODPM 12.3.2004 (revised 01.04.10)

Due for Review	Feb 2018	Page	9

- CIPFA Prudential Code for Capital Finance in Local Authorities revised 2011
- CIPFA Guide for Chief Financial Officers on Treasury Management in Local Authorities 1996
- CIPFA Standard of Professional Practice on Treasury Management 2002
- CIPFA Standard of Professional Practice on Continuous professional Development 2005
- CIPFA Standard of Professional Practice on Ethics 2006
- The Good Governance Standard for Public Services 2004
- LAAP Bulletins
- CIPFA Code of Practice on Local Authority Accounting in the United Kingdom
- PWLB circulars on Lending Policy
- The Non Investment Products Code (NIPS) - (formerly known as The London Code of Conduct) for principals and broking firms in the wholesale markets.
- Financial Services Authority's Code of Market Conduct
- The Council's Standing Orders relating to Contracts
- The Council's Financial Regulations
- The Council's Scheme of Delegated Functions

1.6.2 Procedures for Evidencing the Council's Powers/Authorities to Counterparties

The Council's powers to borrow and invest are contained in legislation.

Investing: Local Government Act 2003, section 12

Borrowing: Local Government Act 2003, section 1

In addition, it will make available on request the following the scheme of delegation of treasury management activities contained in Treasury Management Strategy which states

- which officers carry out these duties
- which officers are the authorised signatories

Required Information on Counterparties

Lending shall only be made to counterparties on the Approved Lending list. This list has been compiled using advice from the Council's treasury advisers based upon credit ratings supplied by Fitch, Moodys and Standard & Poors. Lending can also be made to one of the Council's related parties or subsidiaries.

1.6.3 Statement on the Council's Political Risks and Management of Same

The Head of Finance shall take appropriate action with the Council, the Chief Executive Officer and the Leader of the Council to respond to and manage appropriately political risks such as change of majority group, leadership in the Council, change of Government etc.

1.6.4 Monitoring Officer

It is the duty of the monitoring officer to ensure that the treasury management activities of the Council are lawful.

1.6.5. Chief Financial Officer

The Chief Financial Officer is the Head of Finance. The duty of this officer is to ensure that the financial affairs of the Council are conducted in a prudent manner and to make

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	10

a report to the Council if he has concerns as to the financial prudence of its actions or its expected financial position.

1.7 Fraud, Error and Corruption, and Contingency Management

The risk that the Council fails to identify the circumstances in which it may be exposed to the risk of loss through fraud, error, corruption or other eventualities in its treasury management dealings, and fails to employ suitable systems and procedures and maintain effective contingency management arrangements to these ends. It includes the area of risk commonly referred to as operational risk.

This Council will ensure that it has identified the circumstances which may expose it to the risk of loss through fraud, error, corruption or other eventualities in its treasury management dealings. Accordingly, it will employ suitable systems and procedures, and will maintain effective contingency management arrangements, to these ends.

The Council will therefore:-

- a) Seek to ensure an adequate division of responsibilities and maintenance at all times of an adequate level of internal check which minimises such risks.
- b) Fully document all its treasury management activities so that there can be no possible confusion as to what proper procedures are.
- c) Staff will not be allowed to take up treasury management activities until they have had proper training in procedures and are then subject to an adequate and appropriate level of supervision.
- d) Records will be maintained of all treasury management transactions so that there is a full audit trail and evidence of the appropriate checks being carried out.

1.7.1. Details of Systems and Procedures to be Followed, Including Internet Services

Authority

- The Scheme of Delegation to Officers sets out the delegation of duties to officers.
- All loans and investments are negotiated by the responsible officer or authorised persons.
- Loan procedures are defined in the Financial Regulations section of the Council's Constitution.

Procedures

- The Natwest Bankline electronic banking procedures include internet access to the Council's bank account for both downloading statements and entering one-off same-day transactions. The electronic authorisation of transactions through chip and pin cards and passwords follows the same pattern of required signatories as paper transactions do (i.e. one signature up to £5,000 and two signatures for transactions over £5,000).
- PayAway IP is the system used by the Council for the transfer of payment and collection files to the BACs processing centre. BACs collection and payment files are generated by the payroll, creditors, benefits and revenues software systems and transferred through a secure internet portal by the authorised signatories. Files must be generated, approved and sent by two different people.
- Full details of operational procedures are maintained by the Finance Officer (Exchequer Services).

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	11

Investment and borrowing transactions

- A detailed register of all loans and investments is maintained by the Finance Officer (Exchequer Services). A written acknowledgement of each deal is sent promptly to the lending or borrowing institution where transactions are done directly with the organisation.
- Written confirmation is received and checked against the dealer's records for the transaction.
- Any discrepancies are immediately reported to the Head of Finance for resolution.
- All transactions placed through brokers are confirmed by a broker note showing details of the loan arranged. Written confirmation is received and checked against the dealer's records for the transaction. Any discrepancies are immediately reported to the Head of Finance for resolution.

Regularity and security

- Lending is only made to institutions on the Approved List of Counterparties.
- All loans raised, and repayments made, go directly to and from the bank account of approved counterparties.
- Counterparty limits are set for every institution that the Council invests with.
- Brokers have a list of named officials authorised to agree deals.
- There is a separation of duties in the section between dealers and the checking and authorisation of all deals.
- The Council's bank holds a list of Council officials who are authorised signatories for treasury management transactions.
- Payments can only be authorised in a formal letter by an authorised signatory, the list of signatories having previously been agreed with the current provider of our banking services.
- The NatWest Bankline system can only be accessed by a password and online payments require chip and pin authorisation from one or more of the bank signatories (two for payments over £5,000).
- There is adequate insurance cover for employees involved in loans management and accounting.

Checks

- The bank reconciliation is carried out monthly from the bank statement to the financial ledger.
- A debt charge/investment income listing is produced every month when a review is undertaken against the budget for interest earnings and debt costs.

Calculations

- The calculation of repayment of principal and interest notified by the lender or borrower is checked for accuracy against the amount calculated by the Finance Officer (Exchequer Services). This is used to check the amount paid to lenders.
- Average weighted capital loans fund interest rates and debt management expenses are calculated monthly using information from the financial ledger.
- These interest and expense rates are then used to calculate the principal, interest and debt management expense charges to the General Fund.

1.7.2. Emergency and Contingency Planning Arrangements Disaster Recovery Plan.

The Council's main Business Continuity Plan includes a detailed section covering the essential financial systems and procedures, including banking, payments and revenue collection. All members of the treasury management team are familiar with this plan

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	12

and new members will be briefed on it. The plan is reviewed and updated at regular intervals with both paper and electronic copies being available.

All computer files are backed up on the server to enable files to be accessed from remote sites.

1.7.3. Insurance Cover Details

Fidelity Insurance

The Council has 'Fidelity' insurance cover with Zurich Municipal which covers the loss of cash by fraud or dishonesty of employees. This cover is limited to £5.5m for any one event with an excess of £1k for any one event.

Professional Indemnity Insurance

The Council also has an 'Officials Indemnity' insurance policy with Zurich Municipal which covers loss to the Council from the actions and advice of its officers which are negligent and without due care. This cover is limited to £5m for any one event with an excess of £nil for any one event.

1.8 Market Risk Management

The risk that, through adverse market fluctuations in the value of the principal sums an organisation borrows and invests, its stated treasury management policies and objectives are compromised, against which effects it has failed to protect itself adequately.

This organisation will seek to ensure that its stated treasury management policies and objectives will not be compromised by adverse market fluctuations in the value of the principal sums it invests, and will accordingly seek to protect itself from the effects of such fluctuations.

1.8.1. Details of Approved Procedures and Limits for Controlling Exposure to Investments Whose Capital Value May Fluctuate (Gilts, CDs, Etc.)

These are controlled through setting limits on investment instruments where the principal value can fluctuate. The limits are determined and set through the Annual Investment Strategy (which now forms part of the Annual Treasury Management Strategy Statement).

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	13

TMP 2 PERFORMANCE MEASUREMENT

2.1 Evaluation and Review of Treasury Management Decisions

The Council has a number of approaches to evaluating treasury management decisions:

- a. monthly reviews carried out by the Head of Finance and Finance Manager, reported as part of the regular financial monitoring reports to Cabinet.
- b. weekly review reports from our treasury management consultants detailing current markets, forecasts and model portfolio returns.
- c. annual review of performance and strategy with our treasury management consultants.
- d. comparative reviews with neighbouring authorities.

2.1.2 Reviews with our treasury management consultants

The Head of Finance meets with our consultants every 12 months to review the performance of the investment and debt portfolios.

2.1.3 Annual Review after the end of the financial year

In addition to the regular financial monitoring reports to Cabinet, the end of March out-turn report includes an annual treasury management report which reviews the performance of the debt and investment portfolios. This report contains the following:

- a. total debt and investments at the beginning and close of the financial year and average interest rates
- b. borrowing strategy for the year compared to actual strategy
- c. investment strategy for the year compared to actual strategy
- d. explanations for variance between original strategies and actual
- e. debt rescheduling done in the year
- f. actual borrowing and investment rates available through the year
- g. comparison of return on investments to the investment benchmark
- h. compliance with Prudential and Treasury Indicators

2.1.4 Comparative reviews

When data becomes available, comparative reviews are undertaken to see how the performance of the authority on debt and investments compares to other authorities with similar size portfolios (but allowing for the fact that Prudential and Treasury Indicators are locally set). Data can be sourced from: -

- CIPFA Treasury Management statistics published each year for the last complete financial year
- Neighbouring Lancashire authorities
- Capita Asset Services model portfolio

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	14

2.2 Benchmarks and Calculation Methodology:

2.2.1 Debt management

- Average rate on all external debt
- Average period to maturity of external debt
- Average period to maturity of new loans in previous year

2.2.2 Investment

The performance of investment earnings will be measured against the following benchmarks: -

- a. Capita Asset Services model portfolio
 - *Weighted average rate of return*
 - *Weighted average maturity*

Performance may also be measured against other local authority funds with similar benchmarks and parameters managed by other fund managers.

2.3 Policy concerning methods for testing Value for Money in Treasury Management

2.3.1 Frequency and processes for tendering

Tenders are normally awarded on a five-year basis. The process for awarding contracts will be in line with the Council's Contract Standing Orders.

2.3.2 Banking services

The Council's banking arrangements are to be subject to competitive tender unless it is considered that there will be changes in the volume of transactions in the foreseeable future which renders a shorter period appropriate.

2.3.3 Money-broking services

The Council may use money broking services in order to make deposits or to borrow, and will establish charges for all services prior to using them.

2.3.4 Consultants'/advisers' services

This Council's policy is not to appoint full-time professional treasury management consultants (Capita Asset Services advise on an ad hoc basis, alongside automated updates).

2.3.5 Policy on External Managers (Other than relating to Superannuation Funds)

The Council's policy is not to appoint external investment fund managers.

TMP 3 DECISION-MAKING AND ANALYSIS

3.1 Funding, Borrowing, Lending, and New Instruments/Techniques:

3.1.1 Records to be kept

The following records will be retained:-

- Daily and monthly cash balance forecasts
- Brokers' confirmations for investment and temporary borrowing transactions
- Confirmations from borrowing /lending institutions where deals are done directly
- PWLB loan confirmations
- PWLB debt portfolio schedules.
- Certificates for market loans, local bonds and other loans
- Contract notes received from fund manager(s)
- Fund manager(s) valuation statements (if applicable)

3.1.2 Processes to be pursued

- Cash flow analysis.
- Debt and investment maturity analysis
- Ledger reconciliation
- Review of opportunities for debt restructuring (if applicable)
- Review of borrowing requirement to finance capital expenditure (and other forms of financing where those offer value for money)
- Performance information (e.g. monitoring of actual against budget for debt charges, interest earned, debt management; also monitoring of average pool rate, investment returns, etc).

3.1.3 Issues to be addressed

3.1.3.1. In respect of every treasury management decision made the Council will:

- a) Above all, be clear about the nature and extent of the risks to which the Council may become exposed
- b) Be certain about the legality of the decision reached and the nature of the transaction, and that all authorities to proceed have been obtained
- c) Be content that the documentation is adequate both to deliver the Council's objectives and protect the Council's interests, and to deliver good housekeeping
- d) Ensure that third parties are judged satisfactory in the context of the Council's creditworthiness policies, and that limits have not been exceeded
- e) Be content that the terms of any transactions have been fully checked against the market, and have been found to be competitive.

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	16

3.1.3.2 In respect of borrowing and other funding decisions, the Council will:

- a) consider the ongoing revenue liabilities created, and the implications for the organisation's future plans and budgets
- b) evaluate the economic and market factors that might influence the manner and timing of any decision to fund
- c) consider the merits and demerits of alternative forms of funding, including funding from revenue, leasing and private partnerships
- d) consider the alternative interest rate bases available, the most appropriate periods to fund and repayment profiles to use and, if relevant, the opportunities for foreign currency funding.

3.1.3.3 In respect of investment decisions, the Council will:

- a) consider the optimum period, in the light of cash flow availability and prevailing market conditions;
- b) consider the alternative investment products and techniques available, especially the implications of using any which may expose the Council to changes in the value of its capital;
- c) in the case of Non-specified investments (ie. those outside the banking sector) the Council will consider the appropriate level of asset security, such as Land Registry charges, local Land Charges, or holding asset deeds.

TMP 4 APPROVED INSTRUMENTS, METHODS AND TECHNIQUES

4.1 Approved Activities of the Treasury Management Operation

- borrowing;
- lending;
- debt repayment and rescheduling;
- consideration, approval and use of new financial instruments and treasury management techniques;
- managing the underlying risk associated with the Council’s capital financing and surplus funds activities;
- managing cash flow;
- banking activities;
- the use of external fund managers (other than Pension Fund)
- leasing.

4.2 Approved Instruments for Investments

Refer to the Treasury Management Strategy.

4.3 Approved Techniques

- Forward dealing
- LOBOs – lenders option, borrower’s option borrowing instrument
- The use of structured products such as callable deposits

4.4 Approved Methods and Sources of Raising Capital Finance

Finance will only be raised in accordance with the Local Government Act 2003 and within this limit the Council has a number of approved methods and sources of raising capital finance. These are:

On Balance Sheet	Fixed	Variable
PWLB	●	●
Market (long-term)	●	●
Market (temporary)	●	●
Market (LOBOs)	●	●
Local temporary	●	●
Local Bonds	●	
Overdraft		●
Internal (capital receipts & revenue balances)	●	●
Leasing (not operating leases)	●	●
Deferred Purchase	●	●

Other Methods of Financing

- Government and EC Capital Grants
- Lottery monies
- PFI/PPP
- Operating leases

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	18

Borrowing will only be done in Sterling. All forms of funding will be considered dependent on the prevailing economic climate, regulations and local considerations. The responsible officer has delegated powers in accordance with Financial Regulations, Standing Orders, the Scheme of Delegation to Officers Policy and the Treasury Management Strategy to take the most appropriate form of borrowing from the approved sources.

4.5 Investment Limits

The Treasury Management Strategy Statement sets out the limits and the guidelines for use of each type of investment instrument.

4.6 Borrowing Limits

See the Treasury Management Strategy Statement.

TMP 5 Organisation, Clarity and Segregation of Responsibilities, and Dealing Arrangements

5.1 Allocation of responsibilities

(i) Full council

- receiving and reviewing reports on treasury management policies, practices and activities
- approval of annual strategy.
- Budget approval

(ii) Cabinet,

- recommendation of amendments to the organisation's adopted clauses, treasury management policy statement and treasury management practices
- budget consideration and recommendations
- approval of the division of responsibilities
- receiving and reviewing regular monitoring reports and acting on recommendations
- approving the selection of external service providers and agreeing terms of appointment.
- reviewing the treasury management policy and procedures and making recommendations to the responsible body.

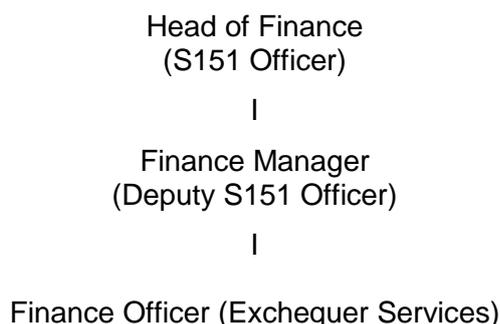

5.2 Principles and Practices Concerning Segregation of Duties

5.2.1 The following duties must be undertaken by separate officers: -

Dealing	Negotiation and approval of deal. Receipt and checking of brokers confirmation note against loans diary. Reconciliation of cash control account. Bank reconciliation
Accounting Entry	Production of transfer note. Processing of accounting entry
Authorisation/Payment of Deal	Entry onto system. Approval and payment.

5.3 Treasury Management Organisation Chart

5.4 Statement of the treasury management duties/responsibilities of each treasury post

5.4.1. The responsible officer

The responsible officer is the person charged with professional responsibility for the treasury management function and in this Council is the Head of Finance (This post is also the S151 officer.) This officer will carry out the following duties: -

- a) recommending clauses, treasury management policy/practices for approval, reviewing the same regularly, and monitoring compliance
- b) submitting regular treasury management policy reports
- c) submitting budgets and budget variations
- d) receiving and reviewing management information reports
- e) reviewing the performance of the treasury management function
- f) ensuring the adequacy of treasury management resources and skills, and the effective division of responsibilities within the treasury management function
- g) ensuring the adequacy of internal audit, and liaising with external audit
- h) recommending the appointment of external service providers.
- i) The responsible officer has delegated powers through this policy to take the most appropriate form of borrowing from the approved sources, and to make the most appropriate form of investments in approved instruments.
- j) The responsible officer may delegate his power to borrow and invest to members of his staff, principally the Finance Manager, to act as temporary cover for leave/sickness. All transactions must be authorised by at least two of the bank signatories as approved in the Treasury Management Strategy Appendix 6.
- k) The responsible officer will ensure that Treasury Management Policy is adhered to, and if not will bring the matter to the attention of elected members as soon as possible.
- l) Prior to entering into any capital financing, lending or investment transaction, it is the responsibility of the responsible officer to be satisfied, by reference to the Council's legal department and external advisors as appropriate, that the proposed transaction does not breach any statute, external regulation or the Council's Financial Regulations
- m) It is also the responsibility of the responsible officer to ensure that the Council complies with the requirements of The Non Investment Products Code (formerly known as The London Code of Conduct) for principals and broking firms in the wholesale markets.

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	21

5.4.2. Finance Officer (Exchequer Services)

The responsibilities of this post will be: -

- a) execution of transactions
- b) adherence to agreed policies and practices on a day-to-day basis
- c) maintaining relationships with counterparties and external service providers
- d) supervising treasury management staff
- e) monitoring performance on a day-to-day basis
- f) submitting management information reports to the responsible officer
- g) identifying and recommending opportunities for improved practices

5.4.3. The Head of the Paid Service – the Chief Executive

The responsibilities of this post will be: -

- a) Ensuring that the system is specified and implemented
- b) Ensuring that the responsible officer reports regularly to full Council and Cabinet on treasury policy, activity and performance.

5.4.4. The Monitoring Officer

The responsibilities of this post will be: -

- a) Ensuring compliance by the responsible officer with the treasury management policy statement and treasury management practices and that they comply with the law.
- b) Being satisfied that any proposal to vary treasury policy or practice complies with law or any code of practice.
- c) Giving advice to the responsible officer when advice is sought.

5.4.5. Internal Audit

The responsibilities of Internal Audit will be: -

- a) Reviewing compliance with approved policy and treasury management practices.
- b) Reviewing division of duties and operational practice.
- c) Assessing value for money from treasury activities.
- d) Undertaking probity audit of treasury function.

5.5 Absence Cover Arrangements

The Finance Manager is also the deputy S151 Officer. The Finance Manager will also ensure that cover is available for the Finance Officer (Exchequer Services) and other treasury management officers as necessary.

5.6 Dealing Limits

The following posts are authorised to deal:

- The Head of Finance: limited to investments and loans of £5m per transaction. Amounts in excess of this limit should be by Scheme of Delegation.

5.7 Policy on Brokers' Services

It is this Council's policy to rotate business between brokers.

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	22

5.8 Policy on Taping of Conversations

It is not this Council's policy to tape brokers conversations.

5.9 Direct Dealing Practices

The Council will consider dealing direct with counterparties if it is appropriate and the Council believes that better terms will be available. At present, most deals are arranged by this method. There are certain types of accounts and facilities, however, where direct dealing is required, as follows;

- Business Reserve Accounts:
- Call Accounts:
- Money Market Funds.

5.10 Settlement Transmission Procedures

A formal letter signed by an agreed bank signatory setting out each transaction must be sent to the local authority's bankers where preliminary instructions have been given by telephone. For payments a transfer will be made through BACs or CHAPs to be completed by the appropriate bank deadlines in place that day.

5.11 Documentation Requirements

For each deal undertaken a record should be prepared giving details of dealer, amount, period, counterparty, interest rate, dealing date, payment date(s), broker.

5.12 Arrangements Concerning the Management of Third-Party Funds.

The Council does not currently manage any third-party funds. Trust funds are now held and administered by the Community Foundation for Lancashire.

5.13 Council Cheque and Bank Signatories

A list of the posts delegated with cheque and bank signatory authority are included within the appendices to the Treasury Management Strategy Statement.

TMP 6 Reporting Requirements and Management Information Arrangements

6.1 Annual programme of reporting

- a) Annual reporting requirements before the start of the year: -
 - a. review of the organisation's approved clauses, treasury management policy statement and practices
 - b. strategy report on proposed treasury management activities for the year comprising of the Treasury Management Strategy Statement, Annual Investment Strategy and Minimum Revenue Provision Policy Statement
- b) Regular review by Cabinet within the Financial Monitoring Reports
- c) Annual review report after the end of the year within the out-turn Financial Monitoring Report.

6.2 Annual Treasury Management Strategy Statement (TMSS)

1. The Treasury Management Strategy Statement sets out the specific expected treasury activities for the forthcoming financial year. This strategy will be submitted to the Cabinet and then to the full Council for approval before the commencement of each financial year.
2. The formulation of the annual Treasury Management Strategy Statement involves determining the appropriate borrowing and investment decisions in the light of the anticipated movement in both fixed and shorter -term variable interest rates. For instance, this Council may decide to postpone borrowing if fixed interest rates are expected to fall, or borrow early if fixed interest rates are expected to rise.
3. The Treasury Management Strategy Statement is concerned with the following elements:
 - a) Prudential and Treasury Indicators
 - b) current Treasury portfolio position
 - c) borrowing requirement
 - d) prospects for interest rates
 - e) borrowing strategy
 - f) policy on borrowing in advance of need
 - g) debt rescheduling
 - h) investment strategy
 - i) creditworthiness policy
 - j) policy on the use of external service providers
 - k) any extraordinary treasury issue
 - l) the MRP strategy
4. The Treasury Management Strategy Statement will establish the expected move in interest rates against alternatives (using all available information such as published interest rate forecasts where applicable), and highlight sensitivities to different scenarios.

Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	24

6.3 The Annual Investment Strategy

Included within the Treasury Management Strategy Statement is the report on the Annual Investment Strategy which sets out the following: -

- a) The Council's risk appetite in respect of security, liquidity and optimum performance
- b) The definition of high credit quality to determine what are specified investments as distinct from non specified investments
- c) Which specified and non specified instruments the Council will use
- d) Whether they will be used by the in house team, external managers or both (if applicable)
- e) The Council's policy on the use of credit ratings and other credit risk analysis techniques to determine creditworthy counterparties for its approved lending list
- f) Which credit rating agencies the Council will use
- g) How the Council will deal with changes in ratings, rating watches and rating outlooks
- h) Limits for individual counterparties and group limits
- i) Country limits
- j) Levels of cash balances
- k) Interest rate outlook
- l) Budget for investment earnings
- m) Policy on the use of external service providers

6.4 The Annual Minimum Revenue Provision Policy Statement

This statement will be submitted as one element of the Annual Treasury Management Strategy Statement and will set out how the Council will make revenue provision for repayment of its borrowing using the four options for so doing.

6.5 Policy on Prudential and Treasury Indicators

1. The Council approves before the beginning of each financial year a number of treasury limits which are set through Prudential and Treasury Indicators.
2. The responsible officer is responsible for incorporating these limits into the Annual Treasury Management Strategy Statement, and for ensuring compliance with the limits. Should it prove necessary to amend these limits, the responsible officer shall submit the changes for approval to the full Council

6.6 Regular and midyear review

The Council will review its treasury management activities and strategy on at least a six monthly basis, though in practice as part of regular financial monitoring to Cabinet. This review will consider the following:

- a) activities undertaken
- b) variations (if any) from agreed policies/practices
- c) interim performance report
- d) regular monitoring
- e) monitoring of treasury management indicators for local authorities.

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	25

6.7 Management Information Reports, including a year-end performance report

Management information reports will be prepared for each Cabinet meeting, the final report going to the first available Cabinet after the year-end. These reports will contain the following information: -

- a) a summary of transactions executed (may want to add brokers used and fees paid) and their revenue (current effects);
- b) measurements of performance including effect on loan charges/investment income;
- c) degree of compliance with original strategy and practices and explanation of variances.
- d) any non compliance with Prudential limits or other treasury management limits.

6.8 Publication of Treasury Management Reports

Treasury Management information reports will be prepared for each Cabinet meeting and these are available as part of the agenda documents on the Council's website at www.rossendale.gov.uk .

The Annual Treasury Management Strategy Statement and the Treasury Management Practices are reviewed at the Full Council meeting each February and are again available as part of the agenda documents on the Council's website at www.rossendale.gov.uk .

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017

TMP 7 BUDGETING, ACCOUNTING AND AUDIT ARRANGEMENTS

7.1 Statutory/Regulatory Requirements

The accounts are drawn up in accordance with the Code of Practice on Local Authority Accounting in Great Britain that is recognised by statute as representing proper accounting practices. The Council has also adopted in full the principles set out in CIPFA's 'Treasury Management in the Public Services - Code of Practice' (the 'CIPFA Code'), together with those of its specific recommendations that are relevant to this Council's treasury management activities.

7.2 Sample Budgets / Accounts / Prudential and Treasury Indicators

The Head of Finance will prepare at least a three year medium term financial plan with Prudential and Treasury Indicators for treasury management which will incorporate the budget for the forthcoming year and provisional estimates for the following two years. This will bring together all the costs involved in running the function, together with associated income. The Head of Finance will exercise effective controls over this budget and monitoring of performance against Prudential and Treasury Indicators, and will report upon and recommend any changes required in accordance with TMP6.

7.3 List of Information Requirements of External Auditors.

- Reconciliation of loans outstanding in the financial ledger to Treasury Management records
- Maturity analysis of loans outstanding
- Certificates for new long term loans taken out in the year
- Reconciliation of loan interest, discounts received and premiums paid to financial ledger by loan type
- Calculation of loans fund interest and debt management expenses
- Details of interest rates applied to internal investments
- Calculation of interest on working balances
- Interest accrual calculation
- Principal and interest charges reports from the ledgers
- Analysis of any deferred charges
- Calculation of loans fund creditors and debtors
- Annual Treasury Report
- Treasury Management Strategy Statement and Prudential and Treasury Indicators
- Review of observance of limits set by Prudential and Treasury Indicators
- Calculation of the Minimum Revenue Provision
- External fund manager(s) valuations including investment income schedules and movement in capital values (if applicable)

7.4 Monthly Budget Monitoring Report

Monthly Budget Monitoring reports are produced for the Head of Finance with quarterly reports to Cabinet. The report is intended to highlight any variances between budgets and spend in order that the Council can assess its financial position. Details of treasury management activities are included within the Cabinet report.

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	27

TMP 8 Cash and Cash Flow Management

8.1 Arrangements for Preparing/Submitting Cash Flow Statements

Cash flow projections are prepared annually and updated monthly and daily. The annual and monthly cash flow projections are prepared according to known changes in levels of income and expenditure and also changes in payments and receipts dates. These details are supplemented on an ongoing basis by information received of new or revised amounts to be paid or received as and when they are known.

8.2 Bank Statements Procedures

The Council receives daily bank statements via a daily download of data from its bank. All amounts on the statement are checked to source data from Payroll, Creditors etc.

A formal bank reconciliation is undertaken on a monthly basis by the Finance Team.

8.3 Payment Scheduling and Agreed Terms of Trade With Creditors

Our policy is to pay all creditors as per the agreed terms of trading.

8.4 Arrangements for Monitoring Debtors / Creditors Levels

The Finance Manager is responsible for monitoring the levels of debtors and creditors.

8.5 Procedures for Banking of Funds

All money received by an officer on behalf of the Council will, without unreasonable delay, be passed to the Exchequer Team to deposit in the Council's banking accounts. Cash and cheques banked the previous day will be taken into account in the daily cash flow.

8.6 Practices Concerning Prepayments to Obtain Benefits

The Council has no formal arrangement in place. Where such opportunities arise, the prepayment would be sought and authorised by the Head of Finance.

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	28

TMP 9 Money Laundering

9.1 Proceeds of Crime Act 2002

Money laundering has the objective of concealing the origin of money generated through criminal activity. Legislation has given a higher profile to the need to report suspicions of money laundering. The Proceeds of Crime Act (POCA) 2002 established the main offences relating to money laundering. In summary, these are:

- concealing, disguising, converting, transferring or removing criminal property from England and Wales, from Scotland or from Northern Ireland
- being concerned in an arrangement which a person knows or suspects facilitates the acquisition, retention, use or control of criminal property
- acquiring, using or possessing criminal property.

These apply to all persons in the UK in a personal and professional capacity. Any person involved in any known or suspected money-laundering activity in the UK risks a criminal conviction. Other offences under the POCA include:

- failure to disclose money-laundering offences
- tipping off a suspect, either directly or indirectly
- doing something that might prejudice an investigation – for example, falsifying a document.

9.2 The Terrorism Act 2000

This act made it an offence of money laundering to become concerned in an arrangement relating to the retention or control of property likely to be used for the purposes of terrorism, or resulting from acts of terrorism. All individuals and businesses in the UK have an obligation to report knowledge, reasonable grounds for belief or suspicion about the proceeds from, or finance likely to be used for, terrorism or its laundering, where it relates to information that comes to them in the course of their business or employment.

9.3 The Money Laundering Regulations 2007

Organisations pursuing relevant business (especially those in the financial services industry regulated by the FSA) are required to appoint a nominated officer and implement internal reporting procedures; train relevant staff in the subject; establish internal procedures with respect to money laundering; obtain, verify and maintain evidence and records of the identity of new clients and transactions undertaken and report their suspicions. In December 2007 the UK Government published the Money Laundering Regulations 2007, which replaced the Money Laundering Regulations 2003.

9.4 Local authorities

Public service organisations and their staff are subject to the full provisions of the Terrorism Act 2000 and may commit most of the principal offences under the POCA, but are not legally obliged to apply the provisions of the Money Laundering Regulations 2007. However, as responsible public bodies, they should employ policies and procedures which reflect the essence of the UK's anti-terrorist financing, and anti-money laundering, regimes. Accordingly this Council will do the following: -

Responsible Section/Team	Finance	Version/Status	2017/18 v1
Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	29

- a) evaluate the prospect of laundered monies being handled by them
- b) determine the appropriate safeguards to be put in place
- c) require every person engaged in treasury management to make themselves aware of their personal and legal responsibilities for money laundering awareness
- d) make all its staff aware of their responsibilities under POCA
- e) appoint a member of staff to whom they can report any suspicions. This person is Head of Finance
- f) in order to ensure compliance is appropriately managed, this Council will require senior management to give appropriate oversight, analysis and assessment of the risks of clients and work/product types, systems for monitoring compliance with procedures and methods of communicating procedures and other information to personnel.
- g) The officer responsible for the creation and monitoring the implementation of a corporate anti money laundering policy and procedures is The Head of Legal and Democratic Services and it shall be a requirement that all services and departments implement this corporate policy and procedures.

9.5 Procedures for Establishing Identity / Authenticity Of Lenders

It is not a requirement under POCA for local authorities to require identification from every person or organisation it deals with. However, in respect of treasury management transactions, there is a need for due diligence and this will be effected by following the procedures below.

The Council does not accept loans from individuals.

All loans are obtained from the PWLB, other local authorities or from authorised institutions under the Financial Services and Markets Act 2000. This register can be accessed through the FSA website on www.fsa.gov.uk.

When repaying loans, the procedures in 9.6 will be followed to check the bank details of the recipient.

9.6 Methodologies for Identifying Deposit Takers

In the course of its treasury activities, the Council will only lend money to or invest with those counterparties that are on its approved lending list. These will be local authorities, the PWLB, Bank of England and authorised deposit takers under the Financial Services and Markets Act 2000. The FSA register can be accessed through their website on www.fsa.gov.uk.

All transactions will be carried out by BACS or CHAPs for making deposits or repaying loans.

Responsible Author	Finance Manager	Report submitted to	Full Council
Date Amended now	Feb 2017	Meeting date	1 March 2017
Due for Review	Feb 2018	Page	30

TMP 10 Training and Qualifications

The Council recognises that relevant individuals will need appropriate levels of training in treasury management due to its increasing complexity. There are two categories of relevant individuals: -

- a) Treasury management staff employed by the Council
- b) Members charged with governance of the treasury management function

All treasury management staff should receive appropriate training relevant to the requirements of their duties at the appropriate time. The Council operates a Personal Development Review system which identifies the training requirements of individual members of staff engaged on treasury related activities.

Additionally, training may also be provided on the job and it will be the responsibility of the Head of Finance to ensure that all staff under his / her authority receive the level of training appropriate to their duties. This will also apply to those staff who from time to time cover for absences from the treasury management team.

10.1 Details of Approved Training Courses

Treasury management staff and members will go on courses provided by our treasury management consultants, CIPFA, money brokers etc.

10.2 Records of Training Received by Treasury Staff

The People and Policy department will maintain records on all staff and the training they receive.

10.3 Record of Secondment of Senior Management

Records will be kept of senior management who are seconded into the treasury management section in order to gain firsthand experience of treasury management operations.

10.4 Statement of Professional Practice (SOPP)

1. Where the Chief Financial Officer is a member of ICAEW, there is a professional need for the CFO to be seen to be committed to professional responsibilities through both personal compliance and by ensuring that relevant staff are appropriately trained.
2. All staff involved in treasury management activities must also comply with the SOPP.

10.6 Member training records

Records will be kept of all training in treasury management provided to members.

10.7 Members charged with governance

Members charged with diligence also have a personal responsibility to ensure that they have the appropriate skills and training for their role.

Responsible Section/Team	Finance	Version/Status	2017/18 v1

TMP 11 Use of External Service Providers

11.1 Details of Contracts with Service Providers, Including Bankers, Brokers, Consultants, Advisers

This Council will employ the services of other organisations to assist it in the field of treasury management. In particular, it will use external consultants to provide specialist advice in this ever more complex area. However, it will ensure that it fully understands what services are being provided and that they meet the needs of this organisation, especially in terms of being objective and free from conflicts of interest.

It will also ensure that the skills of the in house treasury management team are maintained to a high enough level whereby they can provide appropriate challenge to external advice and can avoid undue reliance on such advice.

Treasury management staff and their senior management will therefore be required to allocate appropriate levels of time to using the following sources of information so that they are able to develop suitable levels of understanding to carry out their duties, especially in challenge and avoiding undue reliance.

- The quality financial press
- Market data
- Information on government support for banks and
- The credit ratings of that government support

11.1.1 Banking Services

- a) Name of supplier of service is the NatWest Bank.
- b) Regulatory status – banking institution authorised to undertake banking activities by the FSA
- c) The branch address is:
 - 28 Bank Street
 - Rawtenstall
 - Rosendale
 - Lancashire
 - BB4 8TS
 Tel :- 0151 802 9354 (Business Banking) or
 0845 302 1511 (Branch Banking)
- d) Contract commenced 1992
- e) Cost of service is variable depending on a schedule of tariffs set annually applied to volumes of transactions
- f) Payments are due monthly and quarterly

Due for Review	Feb 2018	Page	32

11.1.2 Money-Broking Services

The Council may use money brokers for temporary borrowing and investment and long term borrowing. It will seek to give an even spread of business amongst the approved brokers.

11.1.3 Consultants'/Advisers' Services

Treasury Consultancy Services

The Council will seek to take expert advice on interest rate forecasts, annual treasury management strategy, timing for borrowing and lending, debt rescheduling, use of various borrowing and investment instruments, how to select credit worthy counterparties to put on its approved lending list etc.

The performance of consultants will be reviewed annually by the Head of Finance to check whether performance has met expectations.

- a) Name of supplier of service is Capita Treasury Services Limited. Their address is 40 Dukes Place, London, EC3A 7NH Tel: 0871 664 6800
- b) Regulatory status: investment adviser authorised by the FSA
- c) Contract commenced during the 1990s and runs on an annual basis.
- d) Cost of service in 2016/17 was £7,250.
- e) Payments are due bi-annually in April and October

11.1.4 Procedures and Frequency for Tendering Services

As per the Council's contract procedure rules.
