This paper provides the Audit and Accounts Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Audit and Accounts Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications. Click on the Grant Thornton logo to be directed to the website [www.grant-thornton.co.uk](http://www.grant-thornton.co.uk).

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

# Progress at 30 November 2018

## 2014/15 Audit

Since the last meeting of the Audit & Accounts Committee we have made progress in concluding the audit of the Council's 2014/15 accounts. In particular we have:

- held discussions with Homes England to confirm the latest position with the Empty Homes programme
- completed our final review of the financial statements
- received responses from management and those charged with governance to our standard requests
- finalised the wording of the audit report, and
- completed our review of the Council's going concern assessment.

Subject to receipt of a final signed version of the Financial statements and the Letter of representation we anticipate being able to issue our Audit report. A copy of the proposed wording of Audit report is attached at appendix A.

Our VfM Conclusion is subject to review by our internal consistency arrangements and will be finalised by 7 December.

## 2015/16 Audit

We have made progress with the audit of the Council's 2015/16 financial statements. With the adjustments now agreed to the Council's 2014/15 accounts officers have been able to agree the revised opening balances and we have completed the majority of our work.

In particular we have

- Ensured the Empty Homes agreed entries are shown in the amended accounts
- Undertaken our review of the Council's Group Accounts which has highlighted a number of errors which required amending
- Completed our review of other material figures within your accounts, such as Property, Plant and Equipment, as well as for grant income. Amendments have been made to both of these items.
- Additional disclosures were required due to changes in the code, particularly in relation to the introduction of the narrative report
- Reviewing the updated accounts to ensure all of the amendments have been made on the final set of accounts
- Requested and received responses to our formal audit queries of management and those charged with governance

We expect to be in a position to complete our final procedures during December and we will send our final Audit Findings Report to Committee Members after it has been agreed with Officers.

Our VfM Conclusion is subject to our internal consistency arrangements and will be finalised during December 2018.

## Other areas

### Certification of claims and returns

We have completed our certification work on the Council's Housing benefit claim for 2017/18. The claim was certified ahead of the deadline. Our audit identified only minor issues and only a brief Qualification Letter was required to be sent to the Department for Work & Pensions. We will report our findings in our certification letter to be issued in December 2018.

### Audit of 2016/17 and 2017/18 financial statements

We have scheduled the audits of the Council's 2016/17 and 2017/18 audits to take place early in 2019. A team is in place to complete the audits by the end of March 2019. An audit plan for the 2016/17 audit will be issued during December 2018.

### Audit fee adjustments

As we discussed at the last Audit & Accounts Committee meeting both your officer and the external audit team have had to undertake significant additional work on the 2014/15 and 2015/16 financial statements. This has included discussions with Homes England, consideration of the changes to the financial statements and specialist input on the accounting adjustments. We are currently in the process of determining the scale of the additional fees for these two years and will discuss this with officer over the next couple of weeks.

### Audit handover arrangements

We have made contact with your new auditors and will liaise with them to ensure there is an orderly handover process.

---

# Sector Update

---

Local government finances are at a tipping point. Councils are tackling a continuing drive to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider NHS and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

- **Grant Thornton Publications**
- **Insights from local government sector specialists**
- **Reports of interest**
- **Accounting and regulatory updates**

More information can be found on our dedicated public sector and local government sections on the Grant Thornton website

# CIPFA consultation – Financial Resilience Index

The Chartered Institute of Public Finance and Accountancy (CIPFA) has consulted on its plans to provide an authoritative measure of local authority financial resilience via a new index. The index, based on publically available information, will provide an assessment of the relative financial health of each English council.

CIPFA has designed the index to provide reassurance to councils who are financially stable and prompt challenge where it may be needed. To understand the sector's views, CIPFA invited all interested parties to respond to questions it has put forward in the consultation by the 24 August.

The decision to develop an index is driven by CIPFA's desire to support the local government sector as it faces a continued financial challenge. The index will not be a predictive model but a diagnostic tool – designed to identify those councils displaying consistent and comparable features that will highlight good practice, but crucially, also point to areas which are associated with financial failure. The information for each council will show their relative position to other councils of the same type. Use of the index will support councils in identifying areas of weakness and enable them to take action to reduce the risk of financial failure. The index will also provide a transparent and independent analysis based on a sound evidence base.

The proposed approach draws on CIPFA's evidence of the factors associated with financial stress, including:

- running down reserves
- failure to plan and deliver savings in service provision
- shortening medium-term financial planning horizons.
- gaps in saving plans
- departments having unplanned overspends and/or undelivered savings.

Conversations with senior practitioners and sector experts have elicited a number of additional potential factors, including:

- the dependency on external central financing
- the proportion of non-discretionary spending – e.g. social care and capital financing - as a proportion of total expenditure
- an adverse (inadequate) judgement by Ofsted on Children's services
- changes in accounting policies (including a change by the council of their minimum revenue provision)
- poor returns on investments
- low level of confidence in financial management.

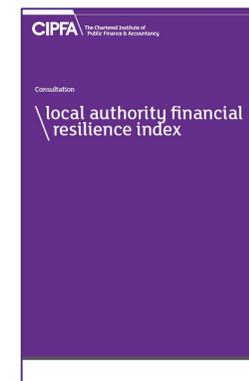

The consultation document proposes scoring six key indicators:

1. The level of total reserves excluding schools and public health as a proportion of net revenue expenditure.
2. The percentage change in reserves, excluding schools and public health, over the past three years.
3. The ratio of government grants to net revenue expenditure.
4. Proportion of net revenue expenditure accounted for by children's social care, adult social care and debt interest payments.
5. Ofsted overall rating for children's social care.
6. Auditor's VFM judgement.

## CIPFA Consultation

### Challenge question:

Are members aware of the Council's response to the Financial Resilience Index consultation?

# MHCLG – Social Housing Green Paper

The Ministry of Housing, Communities and Local Government (MHCLG) published the Social Housing Green Paper, which seeks views on government's new vision for social housing providing safe, secure homes that help people get on with their lives.

With 4 million households living in social housing and projections for this to rise annually, it is crucial that MHCLG tackle the issues facing both residents and landlords in social housing.

The Green Paper aims to rebalance the relationship between residents and landlords, tackle stigma and ensure that social housing can be both a stable base that supports people when they need it and also support social mobility. The paper proposes fundamental reform to ensure social homes provide an essential, safe, well managed service for all those who need it.

To shape this Green Paper, residents across the country were asked for their views on social housing. Almost 1,000 tenants shared their views with ministers at 14 events across the country, and over 7,000 people contributed their opinions, issues and concerns online; sharing their thoughts and ideas about social housing,

The Green Paper outlines five principles which will underpin a new, fairer deal for social housing residents:

- Tackling stigma and celebrating thriving communities
- Expanding supply and supporting home ownership
- Effective resolution of complaints
- Empowering residents and strengthening the regulator
- Ensuring homes are safe and decent

Consultation on the Green Paper is now underway, which seeks to provide everyone with an opportunity to submit views on proposals for the future of social housing and will run until 6 November 2018.

The Green Paper presents the opportunity to look afresh at the regulatory framework (which was last reviewed nearly eight years ago). Alongside this, MHCLG have published a Call for Evidence which seeks views on how the current regulatory framework is operating and will inform what regulatory changes are required to deliver regulation that is fit for purpose.

The Green Paper acknowledges that to deliver the social homes required, local authorities will need support to build by:

- allowing them to borrow
- exploring new flexibilities over how to spend Right to Buy receipts
- not requiring them to make a payment in respect of their vacant higher value council homes

As a result of concerns raised by residents, MHCLG has decided not to implement at this time the provisions in the Housing and Planning Act to make fixed term tenancies mandatory for local authority tenants.

The Green Paper is available on the MHCLG's website at:

<https://www.gov.uk/government/consultations/a-new-deal-for-social-housing>

## Social Housing Green Paper Consultation

### Challenge question:

What does the Social Housing Green Paper mean for your local authority?

# In good company: Latest trends in local authority trading companies

Our recent report looks at trends in LATC's (Local Government Authority Trading Companies). These deliver a wide range of services across the country and range from wholly owned companies to joint ventures, all within the public and private sector.

## Outsourcing versus local authority trading companies

The rise of trading companies is, in part, due to the decline in popularity of outsourcing. The majority of outsourced contracts operate successfully, and continue to deliver significant savings. But recent high profile failures, problems with inflexible contracts and poor contract management mean that outsourcing has fallen out of favour. The days of large scale outsourcing of council services has gone.

## Advantages of local authority trading companies

- Authorities can keep direct control over their providers
- Opportunities for any profits to be returned to the council
- Provides suitable opportunity to change the local authority terms and conditions, particularly with regard to pensions, can also bring significant reductions in the cost base of the service
- Having a separate company allows the authority to move away from the constraints of the councils decision making processes, becoming more agile and responsive to changes in demand or funding
- Wider powers to trade through the Localism act provide the company with the opportunity to win contracts elsewhere

## Choosing the right company model

The most common company models adopted by councils are:

Wholly  
owned

Joint  
Ventures

Social  
Enterprise

Wholly owned companies are common because they allow local authorities to retain the risk and reward. And governance is less complicated. Direct labour organisations such as Cormac and Oxford Direct Services have both transferred out in this way.

JVs have become increasingly popular as a means of leveraging growth. Pioneered by Norse, Corserv and Vertas organisations are developing the model. Alternatively, if there is a social motive rather than a profit one, the social enterprise model is the best option, as it can enable access to grant funding to drive growth.

## Getting it right through effective governance

While there are pitfalls in establishing these companies, those that have got it right are: seizing the advantages of a more commercial mind-set, generating revenue, driving efficiencies and improving the quality of services. By developing effective governance they can be more flexible and grow business without micromanagement from the council.

## LATC's need to adapt for the future

- LATC's must adapt to developments in the external environment
  - These include possible changes to the public procurement rules after Brexit and new local authority structures. Also responding to an increasingly crowded and competitive market where there could be more mergers and insolvencies.
- Authorities need to be open to different ways of doing things, driving further developments of new trading companies. Relieving pressures on councils to find the most efficient ways of doing more with less in today's austere climate.

Overall, joint ventures can be a viable alternative delivery model for local authorities. Our research indicates that the numbers of joint ventures will continue to rise, and in particular we expect to see others follow examples of successful public-public partnerships.

# Institute of Fiscal Studies: Impact of ‘Fair Funding Review’

The IFS has published a paper that focuses on the issues arising in assessing the spending needs of different councils. The government’s ‘Fair Funding Review’ is aimed at designing a new system for allocating funding between councils. It will update and improve methods for estimating councils’ differing abilities to raise revenues and their differing spending needs. The government is looking for the new system to be simple and transparent, but at the same time robust and evidence based.

## Accounting for councils’ spending needs

The IFS note that the Review is seeking a less subjective and more transparent approach which is focused on the relationship between spending and needs indicators. However, like any funding system, there will be limitations, for example, any attempt to assess needs will be affected by the MHCLG’s funding policies adopted in the year of data used to estimate the spending needs formula. A key consideration will be the inherently subjective nature of ‘spending needs’ and ‘needs indicators’, and how this will be dealt with under any new funding approach. Whilst no assessment of spending needs can be truly objective, the IFS state it can and should be evidence based.

The IFS also note that transparency will be critical, particularly in relation to the impact that different choices will have for different councils, such as the year of data used and the needs indicators selected. These differentiating factors and their consequences will need to be understood and debated.

## Accounting for councils’ revenues

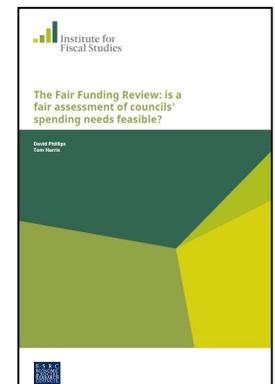

The biggest source of locally-raised revenue for councils is and will continue to be council tax. However, there is significant variation between councils in the amount of council tax raised per person. The IFS identify that a key decision for the Fair Funding Review is the extent to which tax bases or actual revenues should be used for determining funding levels going forward.

Councils also raise significant sums of money from levying fees and charges, although this varies dramatically across the country. The IFS note that it is difficult to take account of these differences in a new funding system as there is no well-defined measure of revenue raising capacity from sales, fees and charges, unlike council tax where the tax base can be used.

## The overall system: redistribution, incentives and transparency

The IFS also identify that an important policy decision for the new system is the extent to which it prioritises redistribution between councils, compared to financial incentives for councils to improve their own socio-economic lot. A system that fully and immediately equalises for differences in assessed spending needs and revenue-raising capacity will help ensure different councils can provide similar standards of public services. However, it would provide little financial incentive for councils to tackle the drivers of spending needs and boost local economics and tax bases.

Further detail on the impact of the fair funding review can be found in the full report <https://www.ifs.org.uk/uploads/publications/comms/R148.pdf>.

# National Audit Office – The health and social care interface

The NAO has published its latest ‘think piece on the barriers that prevent health and social care services working together effectively, examples of joint working in a ‘whole system’ sense and the move towards services centred on the needs of the individual. The report aims to inform the ongoing debate about the future of health and social care in England. It anticipates the upcoming green paper on the future funding of adult social care, and the planned 2019 Spending Review, which will set out the funding needs of both local government and the NHS.

The report discusses 16 challenges to improved joint working. It also highlights some of the work being carried out nationally and locally to overcome these challenges and the progress that has been made. The NAO draw out the risks presented by inherent differences between the health and social care systems and how national and local bodies are managing these.

**Financial challenges** – include financial pressures, future funding uncertainties, focus on short-term funding issues in the acute sector, the accountability of individual organisations to balance the books, and differing eligibility criteria for access to health and social care services.

**Culture and structure** – include organisational boundaries impacting on service management and regulation, poor understanding between the NHS and local government of their respective decision-making frameworks, complex governance arrangements hindering decision-making, problems with local leadership holding back improvements or de-stabilising joint working, a lack of co-terminus geographic areas over which health and local government services are planned and delivered, problems with sharing data across health and social care, and difficulties developing person-centred care.

**Strategic issues** – include differences in national influence and status contributing to social care not being as well represented as the NHS, strategic misalignment of organisations across local systems inhibiting joint local planning, and central government’s unrealistic expectations of the pace at which the required change in working practices can progress..

This ‘think piece’ draws on the NAO’s past work and draws on recent research and reviews by other organisations, most notably the Care Quality Commission’s review of health and social care systems in 20 local authority areas, which it carried out between August 2017 and May 2018. The NAO note that there is a lot of good work being done nationally and locally to overcome the barriers to joint working, but often this is not happening at the scale and pace needed.

The report is available to download from the NAO’s website at:  
<https://www.nao.org.uk/report/the-health-and-social-care-interface/>

## The health and social care interface

### Challenge question:

Has the Committee considered the 16 challenges to joint working and what can be done to mitigate these?

# A Caring Society – bringing together innovative thinking, people and practice

The Adult Social Care sector is at a crossroads. We have yet to find a sustainable system of care that is truly fit for purpose and for people. Our Caring Society programme takes a step back and creates a space to think, explore new ideas and draw on the most powerful and fresh influences we can find, as well as accelerate the innovative social care work already taking place.

We are bringing together a community of influencers, academics, investors, private care providers, charities and social housing providers and individuals who are committed to shaping the future of adult social care.

At the heart of the community are adult social care directors and this programme aims to provide them with space to think about, and design, a care system that meets the needs of the 21st Century, taking into account ethics, technology, governance and funding.

We are doing this by:

- hosting a 'scoping sprint' to determine the specific themes we should focus on
- running three sprints focused on the themes affecting the future of care provision
- publishing a series of articles drawing on opinion, innovative best practices and research to stimulate fresh thinking.

Our aim is to reach a consensus, that transcends party politics, about what future care should be for the good of society and for the individual. This will be presented to directors of adult social care in Spring 2019, to decide how to take forward the resulting recommendations and policy changes.

## Scoping Sprint

This took place in October. Following opening remarks by Hilary Cottam (social entrepreneur and author of Radical Help) and Cllr Georgia Gould (Leader of Camden Council), the subsequent discussion brought many perspectives but there was a strong agreement about the need to do things differently that would create and support a caring society. Grant Thornton will now take forward further discussions around three particular themes:

1. Ethics and philosophy: What is meant by care? Should the state love?
2. Care in a place: Where should the power lie? How are local power relationships different in a local place?
3. Promoting and upscaling effective programmes and innovation

## Sprint 1 – What do we really mean by 'care'?

This will take place on 4 December. Julia Unwin, Chair of the Civil Societies Futures Project, former CEO of the Joseph Rowntree Association and author on kindness will provide her insight to spark the debate on what we really mean by 'care'

## Find out more and get involved

- To read the sprint write-ups and opinion pieces visit: [grantthornton.co.uk/acaringsociety](http://grantthornton.co.uk/acaringsociety)
- Join the conversation at #acaringsociety

### Challenge question:

How is your authority engaging in the debate about the future of social care?

# Appendix A

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ROSSENDALE BOROUGH COUNCIL - DRAFT**

We have audited the financial statements of Rossendale Borough Council (the "Authority") for the year ended 31 March 2015 under the Audit Commission Act 1998. The financial statements comprise the Movement in Reserves Statement, the Comprehensive Income and Expenditure Statement, the Balance Sheet, the Cash Flow Statement, the Group Movement in Reserves Statement, the Group Comprehensive Income and Expenditure Statement, the Group Balance Sheet, the Group Cash Flow Statement, the Collection Fund and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2014/15.

This report is made solely to the members of the Authority, as a body, in accordance with Part II of the Audit Commission Act 1998 and as set out in paragraph 48 of the Statement of Responsibilities of Auditors and Audited Bodies published by the Audit Commission in March 2010. Our audit work has been undertaken so that we might state to the Authority's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Authority and the Authority's members as a body, for our audit work, for this report, or for the opinions we have formed.

### **Respective responsibilities of the Head of Finance and auditor**

As explained more fully in the Statement of Responsibilities, the Head of Finance is responsible for the preparation of the Statement of Accounts, which includes the financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2014/15, and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

### **Scope of the audit of the financial statements**

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Authority and Group's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Head of Finance; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Explanatory Foreword and the Annual governance Statement to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

### **Opinion on financial statements**

In our opinion the financial statements:

- give a true and fair view of the financial position of the Authority and Group as at 31 March 2015 and of the Authority's and Group's expenditure and income for the year then ended; and
- have been prepared properly in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2014/15 and applicable law.

### **Opinion on other matters**

In our opinion, the other information given in the Explanatory Foreword and the Annual Governance Statement for the financial year for which the financial statements are prepared is consistent with the financial statements.

# Appendix A

## Matters on which we are required to report by exception

We are required to report to you if:

- in our opinion the Annual Governance Statement does not reflect compliance with 'Delivering Good Governance in Local Government: a Framework' published by CIPFA/SOLACE in June 2007; or
- we issue a report in the public interest under section 8 of the Audit Commission Act 1998; or
- we designate under section 11 of the Audit Commission Act 1998 a recommendation as one that requires the Authority to consider it at a public meeting and to decide what action to take in response; or
- we exercise any other special powers of the auditor under the Audit Commission Act 1998.

We have nothing to report in these respects.

## Conclusion on the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources

### Respective responsibilities of the Authority and the auditor

The Authority is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

We are required under Section 5 of the Audit Commission Act 1998 to satisfy ourselves that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. The Code of Audit Practice issued by the Audit Commission requires us to report to you our conclusion relating to proper arrangements, having regard to relevant criteria specified by the Audit Commission in October 2014.

We report if significant matters have come to our attention which prevent us from concluding that the Authority has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

## Scope of the review of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources

We have undertaken our review in accordance with the Code of Audit Practice, having regard to the guidance on the specified criteria published by the Audit Commission in October 2014, as to whether the Authority has proper arrangements for:

- securing financial resilience; and
- challenging how it secures economy, efficiency and effectiveness.

The Audit Commission determined these two criteria as those necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether the Authority put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2015.

We planned our work in accordance with the Code of Audit Practice. Based on our risk assessment, we undertook such work as we considered necessary to form a view on whether in all significant respects the Authority had put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

## Basis for Adverse Conclusion

In November 2015 the Council's Internal audit provider published its report from its review of the Empty Homes Programme. The report highlighted widespread and serious failings in the Council's procedures including a failure to consider and assess risk. The report highlighted that normal management controls had been 'over-looked or over-ridden' and there was a lack of adequate supervision of the lead officer who was responsible for the Empty Homes scheme.

---

# Appendix A

---

The issues arising from the Empty Homes Programme have delayed the completion of the audit of the Council's financial statements for 2014/15. A number of significant adjustments have been made to the initial draft financial statements to reflect the changes associated with the Empty Homes Programme and the collapse of the Council's original contractor. In particular grant income has decreased by £3,058k, expenditure has increased by £711k and provisions of £2,713k have been created to reflect the Council's ongoing liabilities.

## Conclusion

On the basis of our work, having regard to the guidance issued by the Audit Commission in October 2014, because of the significance of the matters described in the basis for adverse conclusion section, we are not satisfied that, in all significant respects, the Authority put in place proper arrangements for securing economy, efficiency and effectiveness in the use of resources for the year ended 31 March 2015.

## Delay in certification of completion of the audit

We cannot formally conclude the audit and issue an audit certificate for the Authority for the year ended 31 March 2015 until we have completed our consideration of matters brought to our attention. We are satisfied that this matter does not have a material effect on the financial statements or on our value for money conclusion.
