

## **ROSSENDALE LOCAL PLAN EXAMINATION**

### **HOUSING UPDATE**

August 2021

#### *Housing need and requirement*

This paper provides an update to the Housing Update Paper (HUP) (May 2021) to reflect, the deletion of sites identified in the Post Hearing Letter (PHL) from the Planning Inspectorate (June 2021), the availability of 'other committed sites' land supply data (planning approvals, lapses, Resolution to Grant Subject to the signing of a Section 106 Agreement and completion data for the period 01/04/2020 to 31/03/2021) for Rossendale Borough Council

The Housing Update Paper (May 2021) reflects the available land supply of 'other committed sites' at 31/03/2020. (See Para 8.3 and Appendix 2 of the HUP) Since the HUP was published new land supply data has become available providing a position for the latest financial year 01/04/2020 to 31/03/2021.

Appendix 2: Completions, Housing Allocations and Planning Permission Data .....	11

## **1. Introduction**

- 1.1 This note provides an updated position for the revised Local Housing Need (LHN) as of 2021, supply and completion data and trajectories up to 2036. The option to extend the Local Plan period to 2036 has now been consulted on and recommended as appropriate in the June 2021 Post Hearing Letter (PHL) from the Planning Inspectors that examined the Local Plan. This means the Local Plan will now look forward to 15 years from the intended date of adoption in December 2021.
- 1.2 This note incorporates the updated housing land supply with a base date of 31<sup>st</sup> March 2021 and the latest position for site allocations following the PHL, alongside the revised housing requirement of 208 dwellings per annum (dpa) for years 1 and 2 of the plan (2019 to 2021) and 185 dpa for the remaining years of the plan to 2036. The revised housing requirement has been consulted on at the same time as the extended plan period. Its incorporation has also been recommended for inclusion by the Planning Inspectors in their PHL of June 2021.

## **2. Revised calculation of the Local Housing Need (LHN) for 2021**

- 2.1 Following the standard methodology for calculating LHN from the National Planning Practice Guidance (NPPG) on Housing and Economic Needs Assessment<sup>1</sup> as revised in 2021, Rossendale's LHN is currently **185 dwellings per annum** (dpa). Appendix 1 provides further information on the calculation based on the 2014-based Sub-National Household Projections over the period 2021 – 2031 and using the recently published (25<sup>th</sup> March 2021) median workplace-based affordability ratio of 5.35. As explained at paragraph 1.2 the Council will use an annual housing requirement of 185 for years 3 to 17 of the plan.
- 2.2 The standard methodology provides an annual housing number based on a 10 year period (2021-31), but the PPG states that this can be applied to the whole plan period<sup>2</sup>. For the first two years of the plan period – ie from 2019/20 to 2020/21 - the Council has used the figure of 208 for the LHN.
- 2.3 The under-delivery of dwellings below 208 dpa in the first two years of the Local Plan period to date (2019 and 2020) have therefore been included in the calculations and will be made up later in the Plan period, preferably in the first 5 years of the Plan period (before April 2026).

---

<sup>1</sup> PPG Paragraph: 004 Reference ID: 2a-004-20201216

<sup>2</sup> PPG Paragraph: 012 Reference ID: 2a-012-20190220

### 3. Affordable Homes

- 3.1 The NPPG is clear that the standard methodology applies an affordability adjustment to take account of past under-delivery. The standard method identifies the minimum uplift that will be required and therefore it is not a requirement specifically to address under-delivery separately<sup>3</sup>. Only where an alternative approach to the standard method is used, should past under delivery be taken into account. The NPPG states that an increase to the total housing figures included in the plan may need to be considered where it could help deliver the required number of affordable homes<sup>4</sup>.
- 3.2 The need for affordable homes in the Borough has been calculated in the Strategic Housing Market Assessment Update (SHMA) (2019) in accordance with the NPPG and is between 102 and 170 new dwellings per year (depending on the income percentage used: 25% or 33%). Assuming that market housing schemes can deliver 30% of affordable housing, the SHMA identified that the number of market dwellings that would need to be delivered each year would be between 340 and 567 new dwellings to meet the need for affordable homes. The SHMA acknowledges that meeting such a high need in full is “extremely unlikely” in practice.

### 4. Annual and Overall Housing Land Supply

- 4.1 Table 1 below demonstrates the Council's annual and over all housing supply for the plan period to 2036 using an annual housing requirement of 208dpa for the first two years of the plan (2019/20 and 2020/21) and 185dpa for the remaining years of the plan (2021/22 to 2035/36) The overall housing requirement for the Borough is **3,191 dwellings**.

*Table 1: Annual and overall housing requirement for the period 2019 -2036*

Local Plan Period	Annual Housing Requirement (Year 1 to 2)	Annual Housing Requirement (Year 3 to 17)	Calculation of the Overall Housing Requirement	Overall Housing Requirement
2019 – 2036 (17 years)	208	185	(208 * 2) + (185 * 15)	<b>3,191</b>

<sup>3</sup> PPG Paragraph: 011 Reference ID: 2a-011-20190220

<sup>4</sup> PPG Paragraph: 024 Reference ID: 2a-024-20190220

## 5. Housing Land Supply

This section discusses both the overall supply of housing for the 17-year plan period (2019 to 2036) as well as the 5-Year land supply position for Rossendale with 31<sup>st</sup> March 2019 being the start date.

### 5.1 Small Sites Allowance

A small site is considered to be a site that could deliver 4 dwellings or fewer. In line with national guidance, such sites are not included in the SHLAA and nor are they allocated in the Local Plan. Monitoring of the houses built on small sites (but excluding garden sites) from 2010 to 2021 reveals that an average of 19 dwellings per year were built on small sites.

- 5.2 The Council therefore considers it appropriate to apply a small sites allowance to overall supply calculations. It has been applied from year 6 of the supply figures (2024/25) in order to avoid double counting with outstanding permissions in the supply as 31<sup>st</sup> March 2021. The average small sites allowance on an annual basis for this period is 19, (see Table 2 below) which is the figure we have included in the supply and intend to use moving forward for the plan period to 2036.

*Table 2: Net Number of Dwellings Completed on Small Sites*

Year	Net number of dwellings completed on small sites (1 to 4 dwellings)	Net number of dwellings completed on small sites (1 to 4 dwellings) excluding development on private garden	Net no. of dwellings completed within the Borough	% of completion on small sites (1 to 4 dwellings) (excluding private garden)
2010/2011	5	5	74	7
2011/2012	10	8	119	7
2012/2013 <sup>2</sup>	13	12	135	8
2013/2014	48	46	265	17
2014/2015 <sup>3</sup>	18	15	221	7
2015/2016 <sup>4</sup>	13	12	122	9
2016/2017 <sup>5</sup>	22	19	192	10
2017/2018 <sup>6</sup>	25	23	149	18
2018/2019	27	24	135	17
2019/2020	32	31	93	33
2020/2021	20	18	77	23
Total	233	213	1582	-
Average	21	19	144	13%

### 5.3 Overall Land Supply

Based on the latest update to the housing land supply comprising site allocations, planning commitments, resolution to grant subject to the signing of a section 106 legal agreement, amendments in light of the Inspectors Post Hearing Letter (June 2021) and a small sites allowance of 19 dwellings, as set out in paragraph 5.2. The Council expects to deliver **3,165 dwellings** between 2019 and 2036. This includes the 94 dwellings completed in 2019/20 and 77 dwellings completed in 2020/21. Table 3 below provides a summary of the overall housing land supply. Please see Appendix 2 for further information on the site allocations, planning commitments and completions data.

*Table 3: Summary of overall housing land supply 2019 -2036*

Sources of supply	Years 1-5 (2019/20 – 2023/24)	Years 6-10 (2024/25 – 2028/29)	Years 11-17 (2029/30- 2033/36)	TOTAL
Dwellings completed in Year 1 (2019/20) <sup>5</sup>	94	N/A	N/A	94
Dwellings completed in Year 2 (2020/21)	77	N/A	N/A	77
Remaining dwellings on allocated sites:	417	1135	122	1674
Remaining dwellings on other committed sites:	770	322	0	1092
Small Sites Allowance	0	95	133	228
<b>TOTAL</b>	<b>1358</b>	<b>1552</b>	<b>255</b>	<b>3165</b>

### 5.4 The overall land supply is compared to the housing requirement below:

*Table 4: Comparison of overall housing requirement and housing supply*

Local Plan Period	Overall Housing Requirement	Overall Housing Supply	Shortfall (-) / Surplus (+) to requirement
2019 – 2036 (17 years)	3,191	3165	-26

- 5.5 For the Local Plan period 2019 – 2036, the housing land supply of 3165 dwellings is compared to the adjusted housing requirement of 3,191 dwellings. In this case, a minor shortfall of 26 dwellings is expected.

### 5.6 The Five Year Land Supply

- 5.7 A comparison between the housing requirement and the housing land supply is provided for a five year period from the intended adoption date of the Plan, so for the period 2021 to 2026.

---

<sup>5</sup> In 2019/20, 34 dwellings were completed on site allocations and 60 dwellings were built on other committed sites (a total of 94 dwellings).

5.8 The housing land supply over this five-year period is provided in Table 5.

*Table 5: Housing land supply for the period 2021/22 to 2025/26*

Sources of supply	No. of dwellings
Dwellings remaining on site allocations	1186
Dwellings remaining on other committed sites	1085
Small sites allowance	38
<b>TOTAL 5 YEAR HOUSING SUPPLY</b>	<b>2,309</b>

5.9 The housing requirement over the 5-year period (2021 to 2026) is based on the LHN requirement of 185 dwellings p.a. (or 925 dwellings over the five-year period). Short falls are considered from the earlier years of the Plan period, i.e. 2019/20 and 2020/21. In Years 2019/20 and 2020/21 171 dwellings were completed. Against a housing requirement of 208 dpa (416 for the first 2 years) for the first two years of the plan this amounts to a shortfall of 245 dwellings.

5.10 According to paragraph 74 of the NPPF (2021 update), a 20% buffer should be included where there is a significant under delivery. As stated above, housing completions in 2019/20 and 2020/21 are significantly lower than the requirement of 208 dpa (for years 2019/20 and 2020/21 of the plan) The Housing Delivery Test published in 2021, shows that by delivering 64% of its housing requirement the Council must apply a 20% buffer to the 5-year housing land calculation, as well as the presumption in favour of sustainable development. The PPG on housing supply and delivery further explains that the buffer should be applied to the requirement including any shortfall<sup>6</sup>. The calculation is shown in table 6 below.

*Table 6: Five year housing requirement and supply*

Local Plan Period	5 year period	Annual Housing Requirement for this 5 year period	Backlog from previous years in the Plan	20% buffer calculation	5 Year Housing Requirement Calculation including 20% buffer and backlog	5 Year Housing Requirement including 20% buffer and backlog	5 Year Housing Supply	Annual Housing Requirement including backlog and 20% buffer	No. years of supply
2019 - 2036	2021 - 2026	185	416 -171 =245	$5*185+245/100*20=234$	$5*185+245+234=$	1404	2309	$185+(245/5)+20\% = 280.8$	8.2

<sup>6</sup> [PPG Paragraph: 022 Reference ID: 68-022-20190722](#)

5.11 Table 6 shows that RBC is able to demonstrate a 5 year housing land supply for the period April 2021 to March 2026 based on site allocations, other committed sites and a small sites allowance.

## 6. The Housing Trajectory

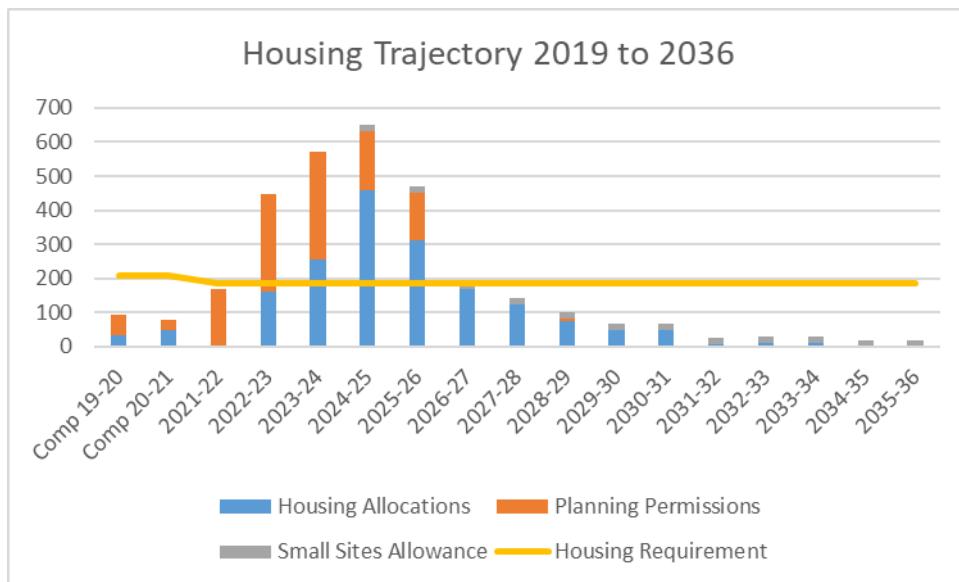

Table 7: Summary Data Table

	Comp 19-20	Comp 20-21	2021-22	2022-23	2023-24	2024-25	2025-26	2026-27	2027-28	2028-29	2029-30	2030-31	2031-32	2032-33	2033-34	2034-35	2035-36

Small Sites Allowance					0	19	19	19	19	19	19	19	19	19	19	19	19
<b>Total Expected Annual Delivery</b>	<b>94</b>	<b>77</b>	<b>170</b>	<b>446</b>	<b>571</b>	<b>651</b>	<b>471</b>	<b>187</b>	<b>143</b>	<b>100</b>	<b>68</b>	<b>67</b>	<b>24</b>	<b>30</b>	<b>28</b>	<b>19</b>	<b>19</b>
Housing Requirement	208	208	185	185	185	185	185	185	185	185	185	185	185	185	185	185	185

6.1 The above Housing Trajectory and Summary Data Table provide data showing all forms of anticipated housing supply and trajectory of delivery, and includes actual completion data for the two year periods 2019-2021.

## 7. Conclusion

7.1 The local housing need for 2021, based on the standard method, provides a figure of 185 dpa. The overall housing requirement is **3,191** dwellings.

7.2 In terms of housing land supply, this latest update (August 2021) includes site allocations (status following the post hearing letter of June 2021) the other committed sites (as of 31<sup>st</sup> March 2021) and a small sites allowance, revised in light of the latest comparison data. For the plan period to 2036, the housing

supply will fall short of meeting the overall requirement by 26 dwellings, which is considered to be insignificant at less than 1% of the total requirement.

- 7.3 In accordance with national policy, the Council will review the strategic policies within 5 years from the adoption of the Plan to assess whether an update to the housing requirement is necessary. In terms of the five year housing land supply, the Council can demonstrate a sufficient supply of deliverable sites.

## Appendix 1 - Calculation for the base period 2021-2031 as set out in the Housing and economic needs assessment PPG (Paragraph 004 revised 16 12 2020)

### **Step 1 – Setting the baseline**

The 2014-based household projections published in 2016 are used for the calculation (table 406).

- Number of households in 2021: 31,101
- Number of households in 2031: 32,806

The total number of new households is 1,705 over the ten-year period, equivalent to 170.5 household growth per year.

### **Step 2 –An adjustment to take account of market signals**

The latest [median workplace-based affordability ratio](#) was published on 25 March 2021 (table 5c). For Rossendale it is 5.35 in 2020.

The adjustment factor is calculated below:

$$\text{Adjustment factor} = \frac{(\text{Local affordability ratio} - 4)}{4} * 0.25 + 1 = \frac{(5.35 - 4)}{4} * 0.25 + 1 \\ = 1.084375$$

The adjustment factor is 1.084375 and is used to calculate the local housing need as shown below:

Local housing need = adjustment factor \* projected household growth

Local housing need = 1.084375 \* 170.5 = 184.8859375

The local housing need for Rossendale for the period 2021 -2031 is 184.9 houses a year, rounded up to 185 houses a year. Over the period 2021 to 2036 (15 years), this amounts to 2,775 houses.

### **Step 3 – Capping the level of any increase**

RBC adopted its local plan more than 5 years ago and has not reviewed its housing requirement figure since then.

- The average annual housing requirement in the adopted relevant policy is 247 dwellings a year.
- The average annual household growth over 10 years is 171 (170.5 rounded up) (as per step 1)
- The minimum local housing need is 185 dwellings per year (as per step 2).
- The cap is set at 40% above the higher of the most recent housing requirement or household growth. In this case, the adopted Local Plan housing requirement is higher than the household growth:

$$\text{Cap} = 247 + (40\% * 247) = 247 + 98.8 = 345.8$$

The capped figure is greater than the minimum local housing need and therefore does not limit the increase to the local authority's minimum annual housing need figure. The minimum figure for RBC is 185 dwellings per year.

**Table 3: Sites Allocated in the 2019-2036 Local Plan.**

*Sites with a completion or planning permission in full at 31/03/2021 have been moved into the Permissions or Completions Tables. Where sites have planning permission for a proportion of the site at 31/03/2021 the allocation yield has been reduced and the permission has been moved to the Permissions Table. The Inspectors recommendations have also been incorporated into the tables and supply data.*
